COUNTY OF YOLO

Woodland, California

July 15, 1965

Honorable William E. Duncan, Chairman
and Members of the Board of Supervisors
Woodland, California

Gentlemen:

The proposed county budget for the fiscal year 1965-66 as submitted for your consideration and review provides for an expenditure program in total budgetary requirements for all county purposes of \$13,668,958. This is an increase in proposed expenditures and reserves of \$1,493,321 more than the budget for the last fiscal year, 1964-65, which was \$12,175,637.

During the fiscal year 1964-65, your Honorable Board has received many requests for new services and expansion of existing services. These requests have been received from citizens and groups including the League of Women Voters, the Ministerial Association, the Farm Bureau Women, the Chamber of Commerce, and the Friends of the Library, to mention a few. The proposed budget includes adequate funds for the proper administration of such new and expanded

services as approved by your Honorable Board. Such new or expanded services include Child Welfare Services, a Court of Conciliation, Juvenile Traffic Court, an expanded park program, expanded mental health services, an expanded drainage design program for a major portion of this county.

Despite the financial impact of such new and expanded services and an increase in the Welfare Department budget of approximately \$877,000 from \$4,356,000 in 1964-65 to \$5,233,000 in 1965-66, and despite the total budget increase of \$1,493,000, this tabulated preliminary budget only provides for an increase of one cent in the General Fund tax rate, from \$1.80 in 1964-65, to \$1.81 in 1965-66. In this respect, by comparison, Yolo County is somewhat more fortunate than a major number of other counties who are faced with ten, twenty, and thirty cent increases in their General Fund property tax rate this year. It is entirely possible that even the one cent increase in the General Fund tax rate may not be necessary since advance information made available after this budget was tabulated indicates a probable substantial increase in assessed valuation of the utility tax roll which will not be received from the State Board of Equalization until August. This matter may be resolved at final budget

hearings in August, should your Honorable Board so desire.

In summary, the proposed preliminary budget for the fiscal year 1965-66 requires a basic county tax rate of \$2.09 per \$100 of assessed valuation divided as follows:

General Fund	\$1.81
Accumulative Capital Outlay	.28
Total	\$2.09

To a major extent, the budget for 1965-66 will be financed by miscellaneous revenues. The property tax revenue provided through the 5.3% increase in assessed valuation falls substantially short of the required additional county funds necessary to match federal and state funds for the major increase in the budget of the Welfare Department. One other item is worthy of particular comment, and that is that the budget as submitted includes a substantial increase in Social Security benefit contributions, which is required by law. This is equal to approximately 3 cents on the tax rate, and this, too, has been absorbed.

A partial list of budget increases, totaling \$1,587,813 is as follows: (Detailed comments relating to certain of these items of increase will be included in a subsequent portion of this budget letter.)

	Increase		%
	Requested Over '64-65		Increase

GENERAL COMMENTS AND RECOMMENDATIONS

(1) CAPITAL OUTLAY FUND

The proposed accumulative capital outlay budget (building fund) of \$1,117,500 includes an increase of \$280,635 over the 1964-65 budget of \$836,865. This is the largest building fund budget in the history of Yolo County and is divided as follows:

- (A) The sum of \$860,700 is allocated as a continued lay-away fund for the construction of a new Sheriff's office and County Jail. Consistent with the policy established by your Honorable Board, the funds for this purpose will not be expended until sufficient funds for construction of the new detention facility are available.
- (B) The sum of \$60,000 is included for land acquisition as may be required for advance purchase of property necessary for construction of county facilities.
- (C) The sum of \$35,000 is included for continued capital improvement of the County Hospital facility.

- (D) The sum of \$100,000 is included for reconstruction of county facilities in the East Yolo area to house the many branches of county departments located in that area. During the course of the fiscal year 1964-65 your Honorable Board investigated the possibility of improving the old school building in Broderick, and found the expenditure of thousands of dollars in that facility would be a waste of county funds. The anticipated construction will provide for modernizing the structurally sound auditorium into two floors of offices.
- (E) The sum of \$10,800 is provided for the construction of a warehouse building for the Agricultural Department. This will eliminate a hazardous condition relating to the storage of chemicals and other matters which the Agricultural Department uses extensively.
- (F) The sum of \$5,000 is provided for improved recreational facilities at the Juvenile Hall, as approved by your Honorable Board.
- (G) The sum of \$46,000 is provided for continued improvement in the County Courthouse, to modernize the facilities in that fine building.

With respect to expenditures from the capital outlay fund, it is necessary to note that at this time the survey of county building needs is in progress, and the report will be available from the consultants in the month of October, 1965. Because of the extensive nature of this survey of county building needs to 1980 it is entirely possible that certain items included in the budget may be subject to revision upon receipt of that report.

(2) ASSESSOR

Through the cooperation of the Assessor, an extensive review has been made of the operations of the Assessor's office, and the budget requirements of that office. As a result of this review the joint recommendation of the Assessor and the County Executive is for the addition of five new employees to the Assessor's office, which includes two Appraisers, one Auditor-Appraiser, and two Assessment Clerks. The review has developed the need for the establishment of certain new classifications as well. These are three Senior Appraisers who will act as squad leaders for basic assessment areas, such as residential, agricultural, and commercial and industrial units; based on experience, three levels of Appraiser, grades I, II, and III. The recommended salary ranges for these classifications are as follows:

Senior Appraiser.....	Range 20 (\$641-779)
Appraiser III	Range 19 (\$610-742)
Appraiser II	Range 18 (\$581-707)
Appraiser I	Range 16 (\$527-641)
Senior Auditor-Appraiser	Range 19 (\$610-742)
Auditor-Appraiser	Range 18 (\$581-707)

This reorganization of the Assessor's office operations and the reclassifications are necessary in view of the growth of the county, and the increasing workload with which the County Assessor is confronted. In considering the operations of the County Assessor, and the timeliness with which these changes may be made to assist in improved assessment equalization practices, I recommend that the new personnel, reclassification and reorganization of the Assessor's office be effective September 1, 1965. If these changes are to be of assistance

to the Assessor, they cannot be postponed. However, in view of the additions and the reclassifications of the Assessor's professional staff, I recommend the amount of extra help in the budget of \$4,000, which is the same amount as in the last fiscal year, be reduced to \$2,000.

(3) YOLO COUNTY FREE LIBRARY

The budget for the County Library and its extensive system of branches throughout the county is in the amount of \$199,530. This reflects an increase of \$49,655 over the budget for 1964-65. During the course of the past year two major expansions in the library system occurred, consisting of the new Winters Branch and the new Clarksburg Branch Library. In addition, the services at the Davis Branch Library have been expanded. During the past fiscal year there have been no problems with respect to the County Library, except that attributed to growth, and this we may expect to continue. For that reason your Honorable Board caused to have made a survey and report on a long range plan for County Library improvement. This report and its recommendations are now under study by the Yolo County Library Advisory Board. The library budget for operational purposes, because of the expansion in Clarksburg, Winters and Davis, and additional staff required this year at the Davis Branch Library, requires an increase in the library tax rate from 9c to 10c. The Yolo County Advisory Board has recommended an increase in the book budget of the County Library, and that increase is included in the budget as presented. In addition, because of certain knowledge that building problems for housing county library facilities will become acute in the future, an additional 2c on the library

tax rate is provided in order that funds may be available and accumulated on a long range basis for planning and possible construction. This is an initial step in this regard. However, the over-all capital study program previously mentioned may have a bearing on this matter. However, in any event, the additional 2c is necessary to establish the base for a long range construction program for the County Library system.

The County Librarian has requested three additional positions and these are included in the budget. Specifically, these are a professional Librarian for the Davis Branch Library, a Library Assistant Grade II, and a Branch Library Assistant Grade II. The Library Assistant Grade II should be authorized effective September 1, 1965, as this is necessary for the processing of books through the main library in Woodland. The other two positions are provided for in the budget, but with an effective date of January 1, 1966, in view of the fact that the library fund will not have sufficient funds until that time to pay such additional costs.

(4) EMPLOYEE SALARIES

During the course of this past year your Board has had frequent discussions relative to salary levels for various classifications in the county service, in recognition that increases were being made not only in private employment but in public employment as well. Therefore, the Reserve for Contingencies includes sufficient funds to provide for an increase in county salaries effective January 1, 1966. It is recommended that your Honorable Board authorize a salary survey to be made during the month of September, 1965, and that recommendations for salary changes be submitted as soon thereafter

as is feasible. County employees are now subject to stringent examination requirements, and in order that the county will be able to maintain services efficiently, it is necessary to have employee salaries at a level commensurate with the competition.

(5) COUNTY CLERK-RECORDER

The modernization of the County Recorder's office will be continued in this fiscal year into the County Clerk's office. Since this is now progressing, after completion of the micro-film work in the Recorder's office, it is recommended that the budget which includes a special Lectriever filing system be reduced in fixed assets by the sum of \$4,400, and instead provide for six 5-drawer filing cabinets. It is anticipated that as the micro-filming in the County Clerk's office proceeds, that more will be known, and hopefully more affirmative plans may be made in connection with the budget for the fiscal year 1966-67. The Recorder's budget this year is less than the budget was last year, and when the micro-film work is completed during this fiscal year in that office, it may be anticipated that the budget for the Recorder's office may be reduced again next year. The effect of the County Clerk-Recorder's program to modernize these two offices is paying dividends to the county in reducing costs.

(6) DEPARTMENT OF PUBLIC WELFARE

The budget for 1965-66 is \$5,233,947, which is \$877,141 higher than the budget for 1964-65. Your Honorable Board has approved the Child Welfare Service program, and for this purpose four additional positions are provided for the County Welfare Department. Because of

the increasing administrative load established through the growth of this department during the past several years, the Welfare Director has requested the addition of a Welfare Administrative Services Officer to provide for the strengthening of management controls in this department. I recommend that this position be granted effective January 1, 1966. Funds for these positions are included in the present budget. The Child Welfare Services program has not as yet been completely approved by the state and federal governments, and the actual beginning of this program is not known at this time, other than that the Yolo County application has been submitted by the Welfare Director.

(7) SHERIFF-CORONER

The Sheriff-Coroner has submitted a budget in the amount of \$774,037, which represents an increase of \$84,300 over the budget for 1964-65. Five new positions are requested, namely four Deputy Sheriffs—three for East Yolo patrol and one Identification Technician; and one Deputy Coroner. Since 1961 the budget for this department, exclusive of the Coroner's office, has increased from \$498,667 to \$733,082, for an increase of 47%. In addition, the county taxpayers are providing major funds for the construction of a new jail this year, as has been the case in the past two years. Therefore, the funds to be provided for this county department represent a very substantial portion of the tax burden of this county. Of the five positions requested, I concur in the request for the additional Identification Technician, classed as Deputy Sheriff, but recommend that funds for the remaining four positions for the three

patrolmen and one Deputy Coroner be deducted, as appropriate, from the Coroner's Budget and the Sheriff's budget, and that such funds be placed in the Reserve for Contingencies.

(8) PARK DEPARTMENT

This budget was first established in the year 1964-65 in the amount of \$21,600. The proposed budget for this department in 1965-66 is \$32,429, and includes for the first time a position classified as Director of Parks to administer the county's park activities, and to develop a master plan of parks for the county.

(9) BOARD OF SUPERVISORS

The budget for the Board of Supervisors includes funds for the codification of ordinances, for which certain funds were budgeted in 1964-65, but which were inadequate to cover the cost involved. Therefore, this necessary program was delayed until 1965-66. When completed, the codification will provide one central code for reference for all ordinances of Yolo County.

(10) HEALTH DEPARTMENT

The 1965-66 budget for this department includes provision for three additional positions—one part-time Public Health Educator, one Sanitarian, and one Public Health Social Worker. I concur in the request for the additional Sanitarian effective January 1, 1966, based on the fact that Yolo County is growing and additional specific attention is necessary for the maintenance of adequate sanitary standards. With respect to the Public Health Social Worker, I believe that additional consideration should be given to the establishment of this position at a later date, and that the funds for this pur-

pose in the amount of \$7,500 be deleted and placed in the Reserve for Contingencies. In the past, with the absence of Child Welfare Services and Mental Health Services, the Health Department and staff have been imposed upon to provide such services. Since two Psychiatric Social Workers are included in this budget for the Mental Health Service, and three Child Welfare Workers are being provided for in the Welfare Department, there is a serious question as to the need for this position. Furthermore, a very substantial majority of the persons served by the Health Department are also being served by the Welfare Department staff of Social Workers. Lower caseloads have been provided for Welfare Workers now for over a year in order that they can provide services to persons on the various welfare programs. For this reason there is very real question that the establishment of the position of Public Health Social Worker will involve a duplication. A review has been made of staffing in other counties of similar population and assessed valuation, including Butte, Imperial, Kings, Merced, Napa, Placer and Shasta Counties. This position has not been established in any of the above counties of comparable size to Yolo County. With respect to the part-time Public Health Educator position, I recommend approval subject to the condition that a report be submitted to your Honorable Board at the conclusion of six months, with the effective date of this position January 1, 1966.

(11) VETERANS SERVICE OFFICE

The Veterans Service Officer has requested an additional Veterans Service Officer. This position is not included in the budget and I do not recommend ap-

proval. A review has been made of other comparable counties, and the staff of this office, presently numbering three, is equal to the staff of other comparable counties. I also recommend that the County Executive be authorized to make a study of the operation of this office during the course of this fiscal year.

(12) DAVIS JUDICIAL COURT

This Judicial Court has requested an additional one-half time position of Intermediate Typist Clerk. While it is true that the work of this office has increased, it now has three full-time clerical employees, and it is recommended that this request not be granted, and that funds for this purpose not be included in the budget; and that a review of the workload be made in March, 1966.

(13) COUNTY HOSPITAL

An additional position of Staff Physician has been requested, and has been approved by your Honorable Board, and funds for this purpose, totaling approximately \$17,000 are included in the budget as submitted. This reflects an extension of service based on increased workload at the County Hospital.

(14) PROBATION DEPARTMENT

Two additional positions have been provided for in the budget of the Probation Department, namely one Deputy Probation Officer and one Intermediate Stenographer Clerk. These positions are added to this department because of increased workload.

(15) PLANNING DEPARTMENT

The Planning Department has carried a heavy workload for the past two years. The Planning Director has requested the addition of a Planning Technician at Range

16 (\$527-641) effective January 1, 1966. The extensive field work now required of personnel in this department makes necessary this additional position, and it is therefore recommended. Funds for this position, effective January 1, 1966, are included in the budget.

(16) PUBLIC WORKS DEPARTMENT

While the Public Works Department is often referred to as the Road Department, one basic function required of this department relates to the function of the County Engineer and the County Surveyor. The increasing workload in new subdivisions, major and minor drainage projects, and special district proceedings have added a significant burden to this department, which will require an increase of \$128,500 for this purpose in 1965-66. Of this total, \$40,000 is budgeted for the major drainage project known as the Willow Slough Public Law 566 Project. This represents an increase of \$25,000 over what was expended for this purpose this past year.

(17) COMMUNICATIONS

The Communications Director has made certain recommendations relating to changes in classifications and reorganization of this department. An additional position of Communications Technician has been requested. I do not concur in this recommendation at this time, nor have funds for this purpose been included in the budget. However, I do recommend that the County Executive be authorized to make a study of this department during the fiscal year 1965-66, and submit recommendations relating thereto not later than March 1, 1966.

(18) Other than as specifically mentioned in this budget letter, it is recommended that additional positions to be

approved in any department be approved with an effective date of January 1, 1966. This is necessary because the County Treasury will not have sufficient funds to defray such costs at any earlier date.

- (19) As your Honorable Board considers and reviews the proposed budget as submitted, it is recommended that any deletions which may be made, that the amount of such deletions be placed in the Reserve for Contingencies.
- (20) In connection with the submission of the budget, various departments have requested reclassification of positions and salary increases. It is recommended that these be considered in connection with the over-all adjustment of county salaries.
- (21) Although not included in the budget as submitted to your Honorable Board, it is recommended that consideration be given for contribution of \$1,000 to the Yolo County Historical Society. This organization is providing a much needed service to the citizens of this county. This nominal contribution should be of assistance in facilitating the activities of this countywide organization.
- (22) Although not included in this budget as submitted, it is recommended that the sum of \$1,000 be provided to the Family Service Agency of Yolo County. This agency has provided a very worthwhile service, and by its work has contributed to lessening of the burden to the taxpayers. In the absence of private agencies which exist in other counties, this agency has assumed a large burden, and this contribution will assist in strengthening the functions of that agency.
- (23) It is recommended that the \$2,500 provided in the budget, as requested for the Sacramento Convention Bureau be reduced to \$1,000. While it is true that your

Honorable Board has adopted a Hotel/Motel Room Tax, the revenue from that tax will not actually become available in any amount until November, 1965. For this reason it is recommended that the contribution to the Sacramento Convention Bureau be reduced to \$1,000, and that the requested increase be given careful consideration in connection with the 1966-67 budget. This \$1,000 is exactly the same amount as was provided in the budget for 1964-65.

- (24) It is recommended that your Honorable Board approve the proposed budget as submitted, and then consider the individual budgets as presented, and make such adjustments and changes as may be deemed desirable.

The recommendations which have been made above, and in particular those relating to respective departments of the county, as far as addition of personnel is concerned, are based upon an over-view of the entire operation of the county. They are made respectfully and are meant to be constructive, but it is and must be a concern of the County Executive as to the over-all tax burden on the taxpayers of the county in the recommendations which he may make to your Honorable Board, and it is in that spirit that these recommendations have been made.

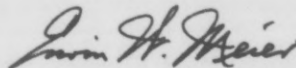

The development of this budget, while normally one of much stress, has moved with a smoothness this year never before equalled in this county. This has been due to the cooperation of the various department heads, and to the tremendous progress in data processing which has been made in the Auditor-Controller's office. The budget process is now well organized and can be handled almost as a matter of routine business in each year hence.

In the spring of this year your Honorable Board was concerned, and the County Executive was concerned that because of tremendous welfare expenditures in 1964-65 and anticipated heavy expenditures in 1965-66, that a substantial tax rate increase would be required. It is gratifying to note that this has not occurred. We, therefore, most certainly are in a much improved position over many other counties this year. Many department budgets included in the 1965-66 budget are at a lesser amount than the past year. This has been due to the policies established by your Honorable Board and the general spirit of cooperation which has existed in the general management of county affairs.

The County Auditor-Controller, Arthur Heasley, and the Assistant Auditor-Controller, Clifford Wetherbee, have had a tremendous burden to bear this year, in view of the fact that this budget for the first time has been processed through the county's data processing equipment; and almost simultaneously, the Assessor's roll, which was delivered to your Honorable Board on July 6, also had to be processed. This has required great coordination, as this budget, as presented, is based on actual financial data rather than estimates, and prior to the presentation of this budget, the county's books have been closed for the previous fiscal year, and balanced. Your Honorable Board has been willing, and often on short notice, to review county matters with the County Executive and the respective department heads. This has established assurance that policy guidance would be provided, and that problems as presented will receive your serious consideration. My secretary, Mrs. Marguerite Lucchesi, the Purchasing Agent, Mr. Jack Harrington, the Personnel Director, Mr. Floyd McCain, and the Budget Analyst, Mr. Conrad Flanders, have contribut-

ed materially in the development and presentation of this budget, and their assistance is sincerely appreciated.

Respectfully submitted,

ERWIN W. MEIER
County Executive

DAMAGE AGREEMENTS
JUNE 1965

I. Definitions.

A. Emergency Flood Relief Law:

Article 6 - Flood Relief, Sections 54150 through 54164, added to Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code by Chapter 1511, Statutes of 1959.

B. The General Provisions:

The General Provisions of Flood Relief Agreements, as stated herein, and providing the general terms and conditions of the agreement entered into between the Local Agency and the State of California, acting by and through the Department of Public Works, the Department of General Services or the Department of Water Resources, pursuant to the Emergency Flood Relief Law, and other applicable Laws.

C. The Contract:

The specific Contract and Special Provisions providing for the performance of particular work by or for a particular Local Agency.

D. The Agreement:

The Contract and the General Provisions, taken together, shall constitute the agreement which is described in Section 54157 (1) (b) of the Emergency Flood Relief Law. In case of conflict between the Contract and the General Provisions, the terms of the Contract shall prevail.

E. Local Agency:

The city, city and county, county or public district named in the Contract as a party thereto.

F. The Department:

The State of California, acting by and through the Department of Public Works, the Department of General Services or the Department of Water Resources and named in the Contract as a party thereto.

G. The Work:

The work described in the Contract, consisting of one or more separate items of work as described therein.

H. Preliminary Engineering:

The term "preliminary engineering" includes all preliminary work including, but not restricted to preliminary surveys

and reports, preparation of cost estimates, laboratory work, soil investigations, preparation of plans, design and advising. The term does not include investigations, estimates or reports made by the Department of Public Works, the Department of General Services or the Department of Water Resources, pursuant to Section 54155 of the Emergency Flood Relief Law.

I. Construction Engineering:

The term "construction engineering" includes actual inspection of the work, necessary construction staking, laboratory and field testing, field reports and records, estimates, and final report.

II. Performance of Work.

A. Performance of work by the Local Agency:

1. When so specified in the Contract, the Local Agency will perform the work or any item thereof, or award the Contracts therefor pursuant to the laws governing the Local Agency. All public works construction contracts awarded by the Local Agency for repair and restoration projects financed hereunder shall include the "Fair Employment Practices" provisions hereto attached as "Appendix 1," or nondiscrimination provisions pursuant to applicable Federal requirements. It shall be the responsibility of the Local Agency to insure compliance with said provisions. Copies of the necessary forms may be procured upon request to the Department of Public Works, the Department of General Services, or the Department of Water Resources. The Local Agency shall render to the Department monthly, or at such intervals as are satisfactory to the Department, claims, in such form as the Department prescribes, covering the cost of the work performed. Thereupon the State will reimburse the Local Agency for the value of the work performed, to the extent of the State's proportionate share thereof, in the ratio set forth in the contract, less ten per cent (10%) of said sum which will be retained by the State for final adjustment as to the amount of the State and Local Agency contribution in accordance with the provisions of Article III(A) hereof.
2. Claims for reimbursement will be certified by an authorized representative of the Local Agency or by a signatory to the Agreement on behalf of the Local Agency. Within sixty (60) days after completion of the work called for by this Agreement, the Local Agency shall file with the Department a final report of expenditures therefor in the form prescribed by the Department. The final payment will be made subject to the adjustments hereinabove described. Prior to such payment, an inspection and audit may be performed, in the discretion of the State.
3. Work records and audit.

The funds herein agreed to be furnished by the State shall be disbursed for work performed pursuant to the

agreement and only upon the submission of claims in forms satisfactory to the State. As to each item of work performed pursuant to this agreement, Local Agency agrees to keep and maintain full, complete, accurate and itemized record of such work and to permit any authorized officer, agent or employee of the State of California to examine such records and to interview in connection with such records or work, all officers, agents or employees of the Local Agency concerned therewith.

4. Review by Department.

Where the Local Agency is to prepare plans and specifications for the work or any item thereof, then prior to performance of such work or advertisement of the notice to bidders therefor, Local Agency shall submit the said plans and specifications to the Department and shall not proceed with the performance of the work or advertisement of the said notice until it has received the Department's written approval of the plans and specifications therefor. The plans and specifications shall not thereafter be modified without the prior approval of the Department.

No contract will be awarded for any item of work in excess of the estimated cost thereof, as shown in the Contract without prior written consent of the Department and the allocation of additional funds if necessary. A tabulation of bids received shall be furnished to the Department in all cases where work is performed by contract.

The Local Agency agrees that the Department may make such inspection of the work as it deems proper in the course of construction. It is agreed that the cost of any preliminary engineering or construction engineering performed by the Department shall be considered as part of the cost of the work. Costs of this nature shall be reimbursed in full to the Department by the Local Agency upon presentation of claims therefor by the Department.

5. Use of Equipment.

Where work is performed by the Local Agency with its own forces, equipment owned by the Local Agency and used on the work may, for the purposes of progress payment claims, be charged in accordance with the Local Agency's normal cost distribution procedure or in any manner that will distribute a fair and equitable share of the over-all equipment depreciation, maintenance and operating expense to each project. During the State's examination of the Local

Agency's records upon completion of the work as set forth in paragraph 3 above, such equipment charges will be subject to adjustment to reflect actual costs as determined by the State.

6. If the Local Agency does not diligently prosecute the work financed under the Agreement, or does not complete said work within the time provided in the Contract, or such further time as the Department may for good cause allow, or if at any time said work is not carried on in a manner satisfactory to the Department, the Department may, upon written notice, terminate the Agreement. Extensions of time may be granted by the Department without the necessity of amending the Agreement. Upon such termination all expenditures and expenses of the Local Agency and the Department necessarily incurred to the date thereof under and in accordance with the Agreement, shall nevertheless be paid from the funds allocated for the work.

B. Performance of Work by the Department:

1. When so specified in the Contract, the Department will perform the work or any item thereof, pursuant to the State Contract Act, and will advertise and award a contract or contracts for the work specified, and will make payments to the contractors as the same become due.
2. Prior to award of the contract the Local Agency shall forward to the Department for deposit in the State Treasury, a sum equal to the matching funds which it has in the Contract agreed to contribute in cash for the work thereof, or such amount as may be determined necessary by the Department to prevent overpayment of the State's contribution determined in accordance with the Emergency Flood Relief Law.
3. The Department may, from time to time, request that the State funds for such work or item be transferred by the State Controller to the Department in such amounts as are deemed necessary by the Department.
4. Contractors performing work under contracts with the Department are responsible to the Department for the satisfactory execution of the Contract; however, on request by the Department the Local Agency will to the limit of its manpower resources furnish at cost such engineering and inspection personnel as may be required. Charges for such engineering will be billed to the Department on completely detailed invoices for reimbursement. The charges for such engineering and inspection shall only be for the direct costs thereof. The Department will exercise general supervision over such contracts

and may take direct control of the work thereof at its discretion when it is deemed that the responsibility of the Department so requires. After completion of the work of said contract or contracts, or portions thereof acceptable to Department, the Local Agency will maintain the completed work.

5. Upon completion of the work covered by the Agreement, the amount of the contribution therefor by the Local Agency and the State shall be adjusted based on the actual cost thereof pursuant to the terms of Article III(A). The Local Agency expressly agrees that upon such adjustment, if there is a deficiency in the amount it has contributed toward such cost, it will pay such deficiency to State or make satisfactory arrangements therefor within ninety (90) days after notice of the amount of such deficiency.

C. Work Already Performed by the Local Agency:

1. Where work covered by this Agreement or any item thereof has already been performed by the Local Agency, it will be reimbursed by the State for the cost thereof to the extent of the State's contribution therefor as set forth in the Contract, upon the submission to Department of claims therefor satisfactory to the State.
2. Ten per cent (10%) of State's contribution therefor shall be retained by the Department pending final audit by the State Controller and adjustment of the State's contribution for the actual cost of the work performed under the Agreement or any subsequent agreements, pursuant to Article III(A).

III. Funds.

- A. Upon completion of the work financed by the Agreement, the contributions by the State and the Local Agency for the cost of such work and of all work completed pursuant to other agreements between the parties and financed under the same appropriation shall be adjusted on the basis of the actual cost thereof in accordance with the contribution schedule set forth in Section 54157 of the Emergency Flood Relief Law. In making such adjustments, all moneys furnished or to be furnished by the United States or any agency thereof for the financing of the work shall be deducted from the cost of the project in accordance with Section 54158 of the Emergency Flood Relief Law, whether or not such Federal funds are included in the Agreement.
- B. Nothing in the Agreement shall be construed to permit the Local Agency to collect more than the total cost of the work or any item of work, from the contributing agencies.

The allocation will be adjusted downward should such a situation become evident.

- C. Either party to the Agreement may request that an agreement amendment be executed should a revision in the method of financing become necessary or advisable.
- D. In no event shall the State become liable for any expenditure for the work or any item thereof in excess of the estimate therefor stated in the Contract except upon its written consent and the allocation of necessary additional funds.
- E. The Department may, without the necessity of amending the Agreement, adjust the cost estimates of items of work financed hereunder within the monetary limits of the Agreement.
- F. In the event the Department, at any time, should determine that any portion of the State funds provided in the contract are in excess of need for the completion of the work, and so notifies the Local Agency, the excess funds will be returned to the fund from which allocated and will no longer be available for expenditure hereunder, unless reallocated.
- G. In the event any work financed hereunder shall be accomplished in a manner which allows the salvage of any materials from the damaged facility, the reasonable value of such salvageable materials shall be applied to reduce the total cost of such work. The reasonable value of such salvageable materials shall be the amount realized by the Local Agency from the sale thereof upon competitive bidding therefor, or in the absence of such sale, such amount as the Department may determine to be reasonable value thereof.
- H. Notwithstanding any other provisions herein contained the Department may at any time retain such funds additional to the 10% retention provided for in Article II hereof as it may deem necessary to prevent an overpayment of the State's contribution toward the work financed hereunder.

IV. Work Eligible for Federal-aid Emergency Relief Funds.

- A. In the event that any item of the work covered by this Agreement is eligible for Federal-aid Emergency Relief Funds, then it is understood and agreed as follows:
 - 1. As provided in Section 116 of Title 23, U. S. Code, it is agreed that after the completion of the work or acceptable portions thereof, the Local Agency will maintain the completed works in a manner satisfactory to the authorized agents of the United States.

2. The execution of this Agreement and the allocation of State funds does not imply that all necessary approvals have been obtained from the U. S. Bureau of Public Roads for the use of Federal-aid Emergency Relief funds. It shall be the obligation of the Local Agency to request such approvals and the instructions related thereto from the District Office of the Division of Highways before proceeding with work described herein that is eligible for such Federal aid.
3. When the cost of preliminary engineering or construction engineering incurred by the Local Agency is to be borne in part by Federal-aid Emergency Relief funds, the use of automobiles will be billed at rates that are in accordance with the Local Agency's normal cost distribution procedure, and in any event at rates that are fair and equitable. The Local Agency will contribute its general administrative and overhead expense. The Bureau of Public Roads shall be given access to the Local Agency's books and records for the purpose of checking costs paid or to be paid by the Department hereunder.
4. Engineering work performed by consulting engineers will be approved for Federal participation only if the contract with the consultant has the prior approval of the Bureau of Public Roads. The supervision of construction must be performed by employees of the State or Local Agency.

V. Miscellaneous Provisions.

- A. The State of California, its departments, divisions, officers and employees, shall not be liable for anything done, or omitted to be done, by the Local Agency in connection with the performance of any work called for by the Agreement. The Local Agency shall, in the event any claim is made against the State, or any department, division, officer or employee thereof, by reason of said work, during its progress or after completion thereof, defend, indemnify and hold harmless said State, department, division, officer or employee from any damage or liability by reason of such claim.
- B. It is agreed by the parties hereto that the State does not and shall not acquire any ownership or interest in the work pursuant to the Agreement and shall not be responsible or liable for the maintenance or operation thereof or for its adequacy in any respect.

C. Right of Way:

Unless otherwise stated in the Contract, the Local Agency shall furnish at no cost to the State all necessary rights of way and real property required for the work, free and clear of obstructions and encumbrances, and expressly assumes the obligation to pay damages which may result to real property not actually taken but injuriously affected by the work.

The Local Agency further agrees to pay from its own funds, any costs incurred in connection with the work which arise out of right of way litigation or delays to the contractor because right of way has not been made available to him for the orderly prosecution of the work.

- D. The Local Agency shall procure any and all permits, licenses or authorizations which may be required by Federal, State or local law, imposed by any agency having jurisdiction therein in reference to said work and no expenditure therefor shall be chargeable against the funds available for the work under the Agreement.
- E. Any local materials such as earth or gravel used in the work and obtained from property owned by the Local Agency will be made available by the Local Agency without royalty charges. Royalty charges for materials obtained from property owned by others under agreement with the Department or under agreements with the Local Agency that have been approved by the Department may be charged to the cost of the work.
- F. The Agreement shall be of no force or effect unless such State funds as are specified in the agreement are allocated.
- G. The Agreement may be terminated and the provisions thereof may be altered, changed or amended by mutual consent of the parties hereto.

FAIR EMPLOYMENT PRACTICES PROVISIONS

In connection with the performance of work under this contract, the Contractor agrees as follows:

(1) The Contractor will not willfully discriminate against any employee or applicant for employment because of race, color, religion, ancestry, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, ancestry, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the awarding authority setting forth the provisions of this Fair Employment Practices section.

(2) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the awarding authority, advising the said labor union or workers' representative of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(3) The Contractor will permit access to his records of employment, employment advertisements, application forms, and other pertinent data and records by the Fair Employment Practices Commission, the awarding authority or any other appropriate agency of the State of California designated by the awarding authority, for the purposes of investigation to ascertain compliance with the Fair Employment Practices section of this contract.

(4) A finding of willful violation of the Fair Employment Practices section of this contract or of the Fair Employment Practices Act shall be regarded by the awarding authority as a basis for determining the Contractor to be not a "responsible bidder" as to future contracts for which such Contractor may submit bids, for revoking the Contractor's prequalification rating, if any, and for refusing to establish, re-establish or renew a prequalification rating for the Contractor.

The awarding authority shall deem a finding of willful violation of the Fair Employment Practices Act to have occurred upon receipt of written notice from the Fair Employment Practices Commission that it has investigated and determined that the Contractor has violated the Fair Employment Practices Act and has issued an order under Labor Code Section 1426 or obtained an injunction under Labor Code Section 1429.

Upon receipt of such written notice from the Fair Employment Practices Commission, the awarding authority shall notify the Contractor that unless he demonstrates to the satisfaction of the awarding authority within a stated period that the violation has been corrected, his prequalification rating will be revoked at the expiration of such period.

(5) The Contractor agrees, that should the awarding authority determine that the Contractor has not complied with the Fair Employment Practices section of this contract, then pursuant to Labor Code Sections 1735 and 1775, the Contractor shall, as a penalty to the awarding authority, forfeit, for each calendar day, or portion thereof, for each person who was denied employment as a result of such non-compliance, the penalties provided in the Labor Code for violation of prevailing wage rates. Such monies may be recovered from the Contractor. The awarding authority may deduct any such damages from any monies due the Contractor.

(6) (a) Nothing contained in this Fair Employment Practices section shall be construed in any manner or fashion so as to prevent the awarding authority from pursuing any other remedies that may be available at law.

(b) Nothing contained in this Fair Employment Practices section shall be construed in any manner or fashion so as to require or permit the hiring of aliens on public works, as prohibited by the provisions of Section 1850 of the California Labor Code, or an employee not permitted by the National Labor Relations Act.

(7) Prior to award of the contract, the Contractor shall certify to the awarding authority that he has or will meet the following standards for affirmative compliance, which shall be evaluated in each case by the awarding authority:

(a) The Contractor shall provide evidence, as required by the awarding authority, that he has notified all supervisors, foremen and other personnel officers in writing of the content of the anti-discrimination clause and their responsibilities under it.

(b) The Contractor shall provide evidence, as required by the awarding authority, that he has notified all sources of employee referrals (including unions, employment agencies, advertisements, Department of Employment) of the content of the anti-discrimination clause.

(c) The Contractor shall file a basic compliance report, as required by the awarding authority. Willfully false statements made in such reports shall be punishable as provided by law. The compliance report shall also spell out the sources of the work force and who has the responsibility for determining whom to hire, or whether or not to hire.

(d) Personally, or through his representatives, the Contractor shall, through negotiations with the unions with whom he has agreements, attempt to develop an agreement which will:

1. Spell out responsibilities for non-discrimination in hiring, referral, upgrading and training.

2. Otherwise implement an affirmative anti-discrimination program in terms of the unions' specific areas of skill and geography, to the end that qualified minority workers will be available and given an equal opportunity for employment.

(e) The Contractor shall notify the contracting agency of opposition to the anti-discrimination clause by individuals, firms or organizations during the period of its prequalification.

(8) The Contractor will include the provisions of the foregoing paragraphs 1 through 7 in every first tier subcontract, so that such provisions will be binding upon each such subcontractor.

(9) The form of certificate required herein is illustrated on the page immediately following the signature page of the proposal. This certification must be executed prior to award of the contract or, for convenience, may be executed on the form provided at the time of submitting the proposal.

RESOLUTION NO. 65-231

(Resolution establishing fees to be charged by
the Yolo County Community Mental Health Service)

WHEREAS, the Board of Supervisors of the County of Yolo has adopted a Plan for Community Mental Health Services under the Short-Doyle Act, Division 8 (Section 9000 et seq.) of the Welfare and Institutions Code of the State of California, and the State Department of Mental Hygiene has approved said plan; and

WHEREAS, Section 9050 of said code requires that fees be charged in accordance with ability to pay for mental health services rendered pursuant to an approved local plan, but not in excess of actual costs.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED that the Board of Supervisors does hereby establish the following method of computing the fees to be charged for mental health services rendered under said plan and the results of said computation are hereby fixed as the fees to be charged thereunder:

1. The minimum charge per week, in which there is at least one appointment with a patient or significant relatives of a patient, shall be One Dollar (\$1.00).

2. The typical charge per week, in which there is at least one appointment with a patient or significant relatives of a patient, shall be one percent (1%) of the most recent federal income tax paid. If income tax information is not available the fee to be charged shall be computed in the following manner:

- a. Determine gross income for the previous year and the number of exemptions claimed.
- b. Multiply the number of exemptions by \$600 and subtract product from the gross income to arrive at an adjusted gross income.
- c. Adjusted gross income will then be reduced by

10% or \$1,000, whichever is less, to arrive at net income, to which will be applied the federal income tax rate.

d. One percent (1%) of the federal income tax so computed shall be the fee per week.

3. The maximum charge per week, in which there is at least one appointment with a patient or significant relatives of a patient, shall be Fifteen Dollars (\$15.00). Persons capable of paying in excess of this amount are not eligible for care under the Short-Doyle Program.

4. If medical or health insurance coverage is available it shall be applied against the Fifteen Dollar (\$15.00) maximum charge and the patient shall be responsible for the difference between the Fifteen Dollar (\$15.00) charge and the available insurance within the guidelines set forth above.

5. The fees or charges indicated in Sections 1, 2, 3, or 4 may be waived for families or persons receiving public welfare assistance payments, or in those cases where payment would be a severe financial strain to either the patient or family of the patient.

PASSED AND ADOPTED by the Board of Supervisors of the County of Yolo, State of California, by the following vote:

AYES: McDermott, Combs, Stephens, Conner, Duncan.

NOES: None.

3 **WHEREAS**, the United States Bureau of Reclamation and the
4 State Department of Water Resources are diverting water from the
5 Sacramento-San Joaquin delta for export to areas outside the
6 Sacramento River watershed and are developing physical plans for
7 a greatly increased diversion of such water; and

8 **WHEREAS**, diversions of water by these agencies could,
9 under the plans now being developed, result in great injury and detri-

12 have been in progress for several years between Sacramento River
13 and Delta Water Association, an organization of delta landowners,

NOTES—Delete this clause if only Series A bonds are outstanding; repeat this clause for each series subsequent to Series B.

*Delete if all or remaining bonds are to be issued.

*Delete if only portion of remaining bonds are to be issued.

*Insert amount of TOTAL authorized issue.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22051 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

This form is for use only when the principal amount of any issue has been divided into two or more series and a series subsequent to Series A is being issued. If the bonds being issued are Series A use Form No. 5015-A instead of this form. If the issue has not been divided into two or more series use Form No. 5015.

*NOTE:—The purposes must correspond in every particular with those stated in the election notice.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22051 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

Education Code Section 22052 authorizes the board of supervisors to divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. If this is done, instead of this form use Form No. 5015-A for Series A and use Form No. 5015-B for any series subsequent to Series A.

AGREEMENT NO. 66-25

LAURENCE F. HANCOCK, Clerk

SERVICE AGREEMENT

This AGREEMENT between CUBIC CORPORATION and COUNTY OF YOLO is entered into concurrently with a lease agreement for 5 Votronics Vote Counters dated the same date by and between these same parties.

WHEREAS, by separate written agreement the COUNTY OF YOLO did on the 28th. day of MARCH, 1966, enter into a lease agreement to lease from CUBIC CORPORATION, a California Corporation, with its principal offices located at 9233 Balboa Avenue, San Diego 23, California, 5 Votronics Vote Counters, for a period of five years, and

WHEREAS, it is necessary for the COUNTY OF YOLO to make provision for the care and maintenance of said leased equipment, and CUBIC is willing and desirous of furnishing said care and maintenance,

NOW THEREFORE the parties agree as follows:

1. The COUNTY OF YOLO hereby retains and hires CUBIC CORPORATION to service and maintain the said leased equipment, commencing with its delivery to the COUNTY OF YOLO and for a period of not less than five years thereafter to service and maintain the said leased equipment as more specifically set forth hereinbelow.
2. CUBIC agrees to furnish said care and maintenance for said period as more fully set forth hereinbelow.
3. For the 5-year period of this agreement CUBIC will furnish maintenance on and for the leased equipment, except that for the first two years following the delivery of the aforementioned leased equipment CUBIC will, at its own expense, promptly after receiving written notice thereof, repair, or, at CUBIC's option, replace each, any, or all of said leased equipment, including all necessary material, parts, and labor, if said machine or machines fail to operate as a result of any defect in the quality or workmanship in their manufacture.
4. To the extent not covered by the foregoing warranty, reconditioning, complete overhaul or replacement parts will be performed or furnished by CUBIC, at reasonable charges, at the COUNTY's request and the COUNTY agrees to promptly pay for the same in accordance with CUBIC's normal billing procedures.

5. Four service calls per year will be regularly scheduled to suit the COUNTY OF YOLO convenience, where possible. This agreement will not cover any emergency calls requested during the contract period. All such extra calls will be charged at CUBIC's then current listed rates for labor and travel. When two or more such unscheduled service calls can be covered in one trip, however, travel expenses will be equitably divided among them.
6. All CUBIC service calls will be handled only by trained personnel qualified to handle the inspection, adjustment and repairs necessary to ensure good operating efficiency.
7. This agreement does not cover the repairs of damages caused by accident, fire, water, forces of nature, or unwarranted abuse. Upon written notice from, and request of, COUNTY to repair such damages, at COUNTY's expense, CUBIC agrees to repair or replace said damaged equipment, and COUNTY agrees upon being notified of CUBIC's charges therefor to promptly pay the same.
8. The COUNTY OF YOLO agrees to pay as an annual charge, in advance, on the first day of each year during which this agreement is in effect, commencing with the first day of the third year, the sum of \$ 125.00 . The aforementioned sum of \$ 125.00 is based upon a charge of \$ 25.00 per counter per year.

Should the COUNTY OF YOLO purchase any of the 5 machines being leased concurrently with the execution of this agreement, then and in that case, for each counter so purchased the total annual service charge will be reduced by \$ 25.00 . However, the COUNTY OF YOLO shall have the option at the time it makes any such purchase, as aforesaid, to continue to have said purchased machines serviced under the terms of this agreement.
9. In the event the COUNTY OF YOLO elects to purchase any Votronics Vote Counters from CUBIC outside of the lease, but during the term of the lease, CUBIC agrees to provide for the service of those machines as is provided hereinabove for the leased machines, upon being requested so to do by the COUNTY OF YOLO.
10. CUBIC hereby agrees to defend, at CUBIC's expense, or provide for the defense of, the COUNTY OF YOLO in any litigation instituted against the COUNTY OF YOLO which is based upon a claim of infringement of any United States Letters Patent arising out of the use of the equipment covered by this agreement, whether such litigation be based upon a claim for damages or injunction, or both. CUBIC further agrees to assume and hold the COUNTY OF YOLO harmless from any monetary damages, if such should be awarded, against the COUNTY OF YOLO in any such litigation.

11. CUBIC agrees to provide training for the COUNTY OF YOLO's designated employees in the proper use and operation of the said leased equipment, and CUBIC further agrees to provide the COUNTY OF YOLO with a sufficient number of manuals covering the procedure for operation of the Votronics Vote Counter, Model No. 23P, as approved by the California State Commission on Voting Machines and Vote Tabulating Devices, for use with the said leased equipment. CUBIC further agrees to furnish the County with technical support of and for said leased equipment during its use at major elections during the term of this agreement.
12. Upon the purchase by the COUNTY OF YOLO of any of the equipment being leased concurrently with the execution of this agreement, or outside of that agreement, CUBIC, with and for each unit purchased, will provide the COUNTY OF YOLO an operation and maintenance manual, prepared in accordance with CUBIC's normal commercial practices and designed to enable a qualified technician to service and maintain the said leased equipment.
13. To the extent that the equipment covered by this service agreement is lost, destroyed or damaged beyond repair during the term hereof, and the above mentioned lease is terminated on that account, this service agreement shall also to that extent thereupon terminate and any outstanding balances under the terms of this agreement, as between the parties hereto, shall be adjusted, and paid or repaid as the case may be, to the date of such termination.
14. This agreement shall be binding and effective upon its being duly executed by both of the parties hereto and its effective date shall be the date affixed hereon by the last signator hereto.

LEASE AGREEMENT

By *Laurence P. Menigan*

CUBIC CORPORATION, 9233 Balboa Avenue, San Diego 23, California, as LESSOR, and COUNTY OF YOLO, c/o County Clerk, County Courthouse, Woodland, California, as LESSEE, mutually agree as follows:

1. LESSOR shall lease to LESSEE for a period of five years commencing on 15 April, 1966 and ending on 14 April, 1971, 5 Votronics Vote Counters, Model No. 23P.
2. The rental sums shall be payable in advance, quarterly (i.e. every three months). The first payment in the amount of \$14,500.00 shall be due and payable on 15 April, 1966, or within 15 days after the delivery of the leased equipment, should delivery not be made on or before the 15th day of April, 1966, and will cover the period through July 14, 1966.
3. The remaining nineteen payments hereunder in the amount of \$6646.00 each shall be paid on the 15th day of July, October, January and April successively commencing on July 15, 1966, the last payment becoming due on 15 January, 1971. Each quarterly rental payment shall become due only in consideration of LESSEE's right to possess and use the leased equipment during the preceding quarter.
4. LESSEE shall pay all transportation costs, both to and from LESSOR's plant. LESSEE, at its option, shall have the right to provide its own transportation of the leased equipment to and from LESSOR's plant so long as LESSOR has been advised sufficiently in advance to accommodate LESSEE.
5. The leased equipment shall be used only by the LESSEE or by operators in its direct employ, and the leased equipment shall not be transferred or delivered or sublet to any person, firm, association, corporation, or governmental agency. Within the physical and geographical confines of the County of Yolo however, it is understood and agreed that LESSEE may, while maintaining control of both the leased equipment and the operators of the leased equipment, lend or sublease the equipment to local governmental agencies without the necessity for paying any additional rental to LESSOR herein. This exception granted by LESSOR shall not relieve LESSEE of its obligations under this lease, and, further, LESSEE expressly hereby agrees that all of its duties and obligations under this lease shall continue and be in full force and effect during the period of any such loan or sublease.
6. This agreement shall not be assigned by the LESSEE, either by its own act, or by operation of law, except with LESSOR's written consent, and any attempted assignment of this agreement shall be null, void, and of no legal effect whatsoever.
7. LESSEE shall provide normal safeguards for the care of the equipment consistent with good engineering practice and maintenance.

8. LESSOR shall, at all times during normal business hours, have the right to enter into and upon the premises where the leased equipment is located and shall be permitted to inspect the equipment to assure itself that LESSEE is complying with the requirements of this lease. LESSEE shall keep LESSOR advised of the location of the leased equipment at all times for the purpose of this paragraph.

9. It is understood and agreed that LESSEE is going to use the said equipment at, and move it to, various different locations during the term hereof. In connection therewith, and in connection with its performance of all the terms and conditions of this lease, LESSEE agrees to hold LESSOR harmless from, and hereby indemnifies LESSOR against, any claim for loss or damage whatsoever, and, further, to hold LESSOR harmless from any penalty for any violation of any Federal, State or local law by LESSEE.

10. The leased equipment at all times shall remain and be LESSOR's sole and exclusive property and the LESSEE shall have no right of property therein, except only the right to use the same upon the conditions herein contained.

11. Should the equipment or its use, or this leasing thereof, be subjected to any taxes, including, but not limited to, Personal Property Taxes, or liens arising from such taxes during the term hereof, LESSEE agrees to assume and pay the same. All notices pertaining thereto and received by LESSOR shall be promptly forwarded to LESSEE for payment and LESSEE agrees to pay the same promptly following receipt thereof, whether forwarded by LESSOR or received directly by LESSEE. If for any reason LESSEE should fail to pay the same following receipt of notice that same is due and the LESSOR is subsequently required to pay the same, LESSEE agrees to promptly reimburse LESSOR following notice and proof thereof.

12. If the LESSEE shall fail to pay any rental or other sums due under this lease or shall fail to observe or perform any other term, condition or provision of this lease, or if any proceeding in bankruptcy, insolvency, reorganization, receivership or assignment for benefit of creditors be instituted by or against LESSEE or its property, and as a result of any of the foregoing LESSEE fails, refuses or is unable to make the payments required of LESSEE or to perform any of the other obligations of LESSEE under the terms of this lease, LESSOR, in addition to any other rights or remedies it may have by law, at its election may (a) without re-taking possession of the leased equipment, hold the LESSEE liable for all rents and other sums accrued and unpaid prior to any such default by the LESSEE and for all rents and other sums which shall become due thereafter under the terms of this lease and may recover such sums from the LESSEE from time to time as they become due or at any time thereafter (subject to any applicable statutes or limitation) or (b) retake possession of the leased equipment and either, (i) terminate this lease and the LESSEE's interest in the equipment by giving LESSEE written notice to that effect, in which event the LESSEE shall be liable for all rents and other sums accrued and unpaid prior to such termination, or (ii) without terminating this lease, lease the equipment to a third party for the account of LESSEE and recover monthly from the LESSEE any deficiency between the rents provided for herein and those received from such third party. The LESSOR's election to pursue the remedy provided in clause (b) (ii) above shall not be construed as an election to terminate this lease unless and until the LESSOR gives the LESSEE

written notice to that effect.

13. LESSEE shall not make or allow to be made any changes whatsoever to the leased equipment except by LESSOR or with prior written consent of LESSOR.

14. It is understood and agreed that LESSOR shall not be responsible for any claim or damage whatsoever resulting from failures in operation of the leased equipment whether direct, proximate, consequential or otherwise.

15. LESSEE agrees, at its own expense, to obtain maximum comprehensive coverage for the full value of the leased equipment with a recognized insurer, to name LESSOR as a coinsured, and to provide LESSOR with a true copy of the policy, or endorsement and Certificate of Insurance. LESSEE further agrees at its own expense to have LESSOR included under its Public Liability and Property Damage insurance coverage as a coinsured with regard to the herein leased equipment, or if such be not possible under the terms of said insurance, then LESSEE agrees to obtain such other insurance for the protection of LESSOR as provides not less than \$50/100/10 Thousand minimum Public Liability and Property Damage coverage, and, in either case, to provide LESSOR with a true copy of that policy, or endorsement and Certificate of Insurance.

16. Upon termination of the lease, as provided in paragraph 12, LESSEE shall forthwith deliver said equipment to LESSOR, at its address as herein stated, or at such other address of LESSOR as LESSOR may designate, within the State of California, complete and in good working order and condition, reasonable wear and tear excepted, and shall pay to LESSOR such sums as are due under the terms hereof, and any other charges that may be due to cover replacement, broken or missing parts at LESSOR's regularly established and then prevailing prices.

17. The terms and conditions of this agreement cannot be waived or altered, except in writing, by an authorized officer of LESSOR.

18. Options are hereby granted by the LESSOR to LESSEE to purchase the equipment which is the subject of this lease. These options are granted and shall be exercisable, provided LESSEE is not in default at the time LESSEE exercises the options to purchase, only at one month prior to the expiration of each year of the five-year term of the lease, as follows:

The purchase price for the Vote Counters shall be as follows:

On the 1st day of the 13th month of the lease	\$115,935.00
On the 1st day of the 25th month of the lease	\$ 94,620.00
On the 1st day of the 37th month of the lease	\$ 72,219.00
On the 1st day of the 49th month of the lease	\$ 48,677.00
On the last day of the 60th month of the lease	\$ 29,016.00

LESSEE's exercise of the said options to purchase shall be by one month's prior notice thereof, in writing, as aforesaid, sent by registered or certified mail to LESSOR, and shall be effected by delivering into LESSOR's hands LESSEE's check in the full amount of said purchase price on or before the day hereinabove provided, at which time LESSEE will be furnished a Bill of Sale covering said equipment.

LESSEE shall not lose its last right to exercise said options although LESSEE may not have given timely notice of its exercise, unless LESSEE shall fail to exercise the same within 10 days after receipt of written notice from LESSOR to do so and to make prompt payment thereafter.

The options hereinabove granted may be exercised by LESSEE, as aforesaid, with regard to all or part of the leased equipment; for each Vote Counter unit LESSEE desires to purchase LESSEE shall pay to LESSOR one-fifth of the purchase price -- for each Vote Counter provided hereinabove and applicable at the date the option is exercised, LESSEE shall be furnished a Bill of Sale therefor, and the subsequent rental payments and option prices shall be decreased in proportion.

The purchase prices hereinabove set forth include California state and local sales or use tax at the rate of 4%, and the rental payments specified in this lease agreement shall also include such sales or use tax if the same shall apply to the lease transaction. In the event that a change should occur in the amount or rate of sales or use taxes applicable to either the lease or purchases, or both, as provided in this lease agreement then the difference in the amount of such tax actually due shall be promptly paid by LESSEE to LESSOR on receipt of notice if the tax is increased, or refunded by LESSOR to LESSEE if the tax is decreased.

It is understood and agreed by and between the parties hereto that should the equipment which is the subject matter of this agreement not reasonably satisfactorily perform in the June, 1966 Primary, LESSEE may, on or before the 14th day of July, 1966 (but not otherwise) advise LESSOR in writing of its decision to cancel and void this agreement without any further liability or obligation on its part and LESSOR does hereby agree to accept LESSEE's said decision and, in writing, agree to said cancellation.

19. In the event during the term hereof any item of the leased equipment is lost, destroyed, or damaged beyond repair, this lease shall thereupon forthwith terminate with respect to such item on payment to LESSOR of any rent then due, owing and unpaid together with the aggregate of the option purchase price payable for the item on the option purchase date next following such loss, destruction, or damage, plus the rental payments payable for such item from the time of such loss, destruction, or damage to said next following option purchase date. LESSEE will receive a credit against the foregoing for the amount, if any, received by LESSOR from the proceeds of the hereinabove provided for insurance.

20. This lease agreement is not and is not to be construed to be a conditional sale or other sales or purchase contract, and is wholly independent of and severable from any warranty, maintenance, service or other agreement or obligation of LESSOR respecting the leased equipment.

21. This lease agreement shall be binding upon and shall inure to the benefit of the assigns and successors of the respective parties hereto and in the event LESSOR incurs collection expense, including attorneys' fees, in enforcing any payment obligations of LESSEE hereunder, LESSEE agrees to pay a reasonable additional sum for such expense.

22. This agreement shall be construed in accordance with the laws of and shall be deemed to have been executed in the State of California.

23. This agreement shall be binding and effective upon its being duly executed by both of the parties hereto and its effective date shall be the date affixed hereon by the last signator hereto.

RESOLUTION NO. 66-40

(RESOLUTION OPPOSING PROPOSED CONSTITUTIONAL
INITIATIVE TO LEGALIZE MANUFACTURE, SALE, PUR-
CHASE, POSSESSION AND TRANSPORTATION OF MARIJUANA)

WHEREAS a group calling itself "The Anonymous Committee for
the Abolition of the Prohibition against Marijuana" has commenced
action to amend the Constitution of the State of California to
legalize the manufacture, sale, purchase, possession, and trans-
portation of marijuana within the State of California; and

WHEREAS this group has chosen to remain anonymous; and

WHEREAS it is known that the use of marijuana leads inevi-
tably to the use of hard narcotics such as heroin as the addict's
tolerance and his need for more and stronger narcotics increases;
and

WHEREAS experience in England with the so-called "British
System" of providing drugs for addicts has shown that the legaliz-
ing of drugs in any form results in their increased use and spread
to greater numbers of people; and

WHEREAS the legalizing of marijuana will subject untold
numbers of our citizens to the personal tragedy and suffering of
becoming dependent upon the use of marijuana and as a result
thereof to addiction to heroin; and

WHEREAS the legalizing of marijuana would subject our
citizens to the violent and unpredictable criminal tendencies of
persons under the influence of marijuana; and

WHEREAS such action would result in millions of dollars of
additional cost to the public of police investigation, prosecution,
and incarceration of persons who commit violent and vicious crimes
while under the influence of marijuana and other narcotics to say
nothing of the loss resulting from thefts committed by those
seeking money to support their ever increasing need for narcotics,
and

1 WHEREAS the use of habit forming narcotic drugs destroys
2 willpower, inhibitions and restraints of its users and leads to
3 loss of moral control and to physical and mental collapse; and

4 WHEREAS it is well established that the use of narcotics
5 leads to criminal behavior which is often vicious and senseless;
6 and

7 WHEREAS the people of the State of California are entitled
8 to be protected against the criminal activities of narcotic users;
9 and

10 WHEREAS the proposal is ill considered and unrealistic
11 and could benefit only those who are engaged in the infamous traf-
12 fic in narcotics; and

13 WHEREAS the legalizing of marijuana would serve only to
14 compound what is now one of the most serious and complex problems
15 facing the State of California and would create a clear and
16 present danger to the health, safety and welfare of all our citi-
17 zens; and

18 WHEREAS the refusal of the group sponsoring this monstrous
19 petition to identify themselves constitutes an abuse of the
20 initiative process,

21 NOW, THEREFORE, BE IT RESOLVED that the Board of Super-
22 visors of the County of Yolo most strenuously oppose the proposed
23 constitutional amendment sponsored by "The Anonymous Committee for
24 the Abolition of the Prohibition against Marijuana" and oppose the
25 measure if it qualifies for the ballot.

26 That the Board of Supervisors of the County of Yolo urge
27 all cities and counties in this state to join in opposing this
28 vicious amendment.

29 That the Board of Supervisors of the County of Yolo sup-
30 port the activities of the Special Committee to oppose this
31 proposition.

RESOLUTION NO. 66-47

WHEREAS, California continues to experience an extremely high growth rate, requiring the maximum use of all of its resources, and this growth imposes major responsibility on labor, industry and government to assure expansion of its economy to sustain it; and

WHEREAS, the State's waterborne commerce has matched this growth rate and opened new and expanding markets for its farms and factories, and further, the conflict in Southeast Asia has imposed additional shipping volume on our oceangoing facilities; and

WHEREAS, major new investments are planned or underway by ports, terminals, ship operators and others to meet these new and expanding requirements, and further massive capital expenditures are scheduled to match projected improved waterway access - in industrial plans, power generation, refineries, storage and other facilities; and

WHEREAS, California's seacoast - the nation's largest - remains relatively undeveloped in small harbors to accommodate its major fishing fleet and burgeoning recreational use of boating; and

WHEREAS, navigation is a major area for sustained improvement to meet these demands and opportunities, and improvement of channels and harbors remains substantially less advanced than in many areas of the nation longer settled or offering more favorable geography; and

WHEREAS, these needs must be filled and projects must be accelerated in consonance with the correlated requirements of industry, trade and navigation, and with the present and projected population growth, it is essential that a planned program be followed in accordance with regional and Statewide evaluation and approval; and

1 WHEREAS, the Marine Affairs Conference has represented
2 navigational interests of the region for ten years in the study,
3 review and recommendation of projects for the orderly and efficient
4 development of waterways and harbors;

PRELIMINARY APPLICATION
FOR

SPECIAL SUPERVISION PROGRAM
YOLO COUNTY PROBATION DEPARTMENT

PURPOSE

To provide an intensive program of probation supervision by establishing reduced caseloads of juvenile and adult probationers eligible for commitment to state correctional institutions.

To best utilize the County - State merger for increased probation effectiveness, the Yolo County Probation Department must combine the three elements of training, supervision and personnel. The three needs are interrelated and we propose to approach the problem in the following manner:

We propose to hire a fully qualified casework supervisor to be in charge of our juvenile supervision program. This would include all 600, 601 and 602 Welfare and Institution Code Cases. We further propose to classify all departmental cases according to their need for supervision. Each deputy probation officer will be responsible, with the supervisor for developing a plan or treatment and will be held responsible for that plan.

All new cases referred by the Court officer will be given a brief initial review by the Court officer, the supervisor, and the field officer to share any collateral knowledge the Court officer may have and to establish the treatment goal. The case will be reviewed bi-monthly until a classification can be agreed upon. This review will be made by the casework supervisor and the field officer.

All delinquent cases will be classified. Currently there are 127 such cases under supervision. We propose to utilize three new deputy probation officers to accomplish this special supervision.

Regular review with the supervisor, reduced caseloads, time limits for those minors needing intensive supervision, enriched community program, and better training for officers should result in more effective probation supervision.

We intend to develop a training program with three purposes:

1. A four week, eight hour per day indoctrination course for new deputy probation officers.
2. A follow-up inservice training program for new staff with an additional four hours per week of formal training for an additional eight weeks.
3. An ongoing staff developing program utilizing consultation, training aids and other appropriate means.

We propose to hire four deputy probation officers for special service supervision, three officers will supervise all delinquent minors. We will use one special supervision officer in the adult section to carry a 20 - 40 man caseload of adult felons classified as being most amenable to an intensive program to maintain control and development in the community. This officer will be supervised by the adult section supervisor, who will have three adult deputy probation officers under his supervision for a total of four. We will request that one-fourth of his salary and benefits will be reimbursed under Section 1820 of the Welfare and Institutions Code. We will request that as our juvenile casework supervisor will have five deputy probation officers under his supervision, three of whom are involved in special supervision of 602 cases, that three-fifths of his salary and benefits be reimbursed under Section 1820 of the Welfare and Institutions Code.

I. NUMBER OF PROBATIONERS INVOLVED

The total number of minors involved in the program will never exceed 140 at any given time. Because of new cases assigned to and old cases removed from the program, the total number of minors involved might possibly be 300 in a period of one year.

The total number of adult probationers involved in the program will never exceed 45 at any given time. Because of new cases assigned and old cases removed from the program, the total number of persons involved might be 145 during a period of one year.

II. CLASSIFICATION OF CASES

(See attached Appendix A.)

III. PERSONS SERVED BY PROGRAM

All juvenile male and female cases coming under Section 602 of the Welfare and Institutions Code will be classified and placed under supervision of three deputy probation officers.

All adult cases will be classified and one specialized supervision caseload will be established consisting of those subjects who are felons and are classified in Category II.

APPENDIX A

Our juvenile classification system consists of five categories which are delineated as follows:

Category I:

All new cases without classification. Cases may be placed directly in other categories if enough information is available at the time the minor is placed under supervision.

Category II:

The minor has had three or fewer minor law violations.

Has a satisfactory school adjustment.

Has a relatively stable home situation or at least good relationships and/or communication between the parent or parents.

The offense seems to have been brought on by an isolated set of circumstances not likely to recur and was of a non-violent nature.

The minor has a satisfactory attitude toward authority.

In general does not associate with known delinquents or delinquency prone youngsters.

This Category is also to be used as a terminal category for minors who are under other Categories and are making adjustments toward rehabilitation.

Category III:

This minor is engaged in minor offenses such as petty theft.

Is usually withdrawn, dependent, and has few social contacts.

He may be reticent or passively aggressive.

The minor's parent or parents are unable to control or under-control him and have poor communication with him.

The minor lacks motivation.

CATEGORY IV:

The offense or offenses which bring this minor to the Court's attention are of an assaultive, aggressive or violent nature and the minor has a history of similar involvements.

The minor has an unsatisfactory school adjustment and an unstable home situation or poor parent-child communication or relations.

The minor has a negative attitude toward authority figures.

The minor associates with known delinquents or delinquent prone youngsters.

The minor's adjustment on probation has deteriorated as evidenced by repeated violations of probation or the commission of serious new offenses.

CATEGORY V:

The offense may be of any type.

The minor has a psychotic or near psychotic personality characterized by bizarre or unusual behavior or thought pattern.

The minor may have sexual behavior of unusual nature or a pattern of severely defiant behavior.

Any minor showing unusual behavior having an organic or physical basis.

Category I and IV cases will be reviewed by the officer and his supervisor at least bi-monthly.

Category II, III and V cases will be reviewed by the Officer and his supervisor at least monthly.

No minor shall remain in Category I in excess of three months.

Minors are to be maintained in Category IV no longer than six months. If the minor is continuing to violate or remains static in his behavior, serious consideration should be given to placement. The minor who shows solid improvement should be placed in Category II.

Minors are to be maintained in Category II for a period not to exceed six months unless he has been a Category IV case who, because of the nature of the offense pattern, may need an additional period of time not to exceed three months in the Category.

A copy of the adult classification is attached. We intend to include in our I Specialized Caseload only those felons classified in Category II or on probation to the Superior Court. The goal will be to assist these individuals to accept responsibility to the point where they may complete their term on probation in a self-sustaining manner with only minimal supervision. We intend to provide a variety of community based resources such as Family Service counseling, Adult Education, financial counseling and State Employment service. We hope to work out a group counseling and education program for selected inmates of the County Jail who may be in this Category and where jail is a part of the probation plan.

All special supervision cases are to be reviewed by the officer and his supervisor at least bi-monthly. The subject should not be maintained in this Category for a period longer than nine months.

CLASSIFICATION OF ADULT CASELOAD

The purpose is to classify adult offenders into categories established upon the basis of the amount of time required to accomplish the minimum results. The minimum results is defined as the maximum amount of services or time which can be expended in return for a given financial investment.

The method used in categorizing clients or probationers is based upon the probationers' "fundamental behavior problem". This is defined as the nature of the behavior which resulted in the offense for which the client or probationer was referred. It may or may not be the offense for which the client was convicted. If a man was arrested for burglary and review of the elements of the offense indicated that he entered a home with the intent of committing rape, his intent would be considered the "fundamental behavior problem". If, on the other hand, it was discovered that he was committing burglary to finance a narcotic habit, his addiction would be considered his "fundamental behavior problem". A client referred for failure to pay support may be an alcoholic if his drinking resulted in his inability to work and support his family.

It is recognized that many arrests are made alleging serious felonies which are arbitrarily reduced to relatively minor offenses. In such cases the elements of the offense may indicate aggressive behavior, while the legal definition of the offense for which the client was convicted may describe only minor misconduct.

CATEGORIES

The adult supervision caseload is divided into four (4) categories, and designated by Roman Numerals.

Each category has been established on the basis of criteria chosen for simplicity and ease of identification. Each category is designed to be independent and exclusive of all other categories.

The supervision needs of individual cases fluctuate during the probation period. Therefore, this system provides the opportunity for movement from one category to another. Each case must possess criteria so aligned that it meets the qualifications of another category before movement can take place.

The quantitative effort expended in the supervision of a given case is two (2) dimensional. It is measured in terms of frequency of contact and intensiveness of contact. The combination of these two elements defines and categorizes the required work. These categories are designed as quantitative measuring devices only.

Category I

Definition: These are all of the new cases that are to be screened and reclassified within three (3) months.

Purpose: Provides the opportunity to analyze new cases for the purpose of reclassification within a period of three (3) months, to one of the other categories.

If the offender has exercised and maintained responsibility for his affairs and good conduct for a period of six (6) months, the case should be moved to category IV where the case will receive minimal contact, until the case expires or is terminated.

Criteria: All cases less than three (3) months old, and which do not come within the provisions of category III A or B.

Case Contacts: Moderate frequency and moderate intensity. Regular contact may be expected from the payee of a financial order. The client is in need of assistance in realistic planning and the carrying out of such plans. Limitations are important and are needed to provide control and insurance that the orders of the Court are complied with. Contact with new cases should have a strong emphasis on diagnosis and planning of future treatment.

Category II

Definition: Clients who fall within this category are non-threatening, treatable offenders who have a reasonable amount of positive social adjustment and an apparent history of success in some areas, and/or difficulty complying with financial responsibilities and obligations. Further, it includes those cases which displayed successful adjustment in other categories which required greater intensity or frequency of contacts. They, nevertheless, display a lack of sufficient strength to avoid further violations if a change is not induced.

Purpose: Assist client to develop sufficient strengths in order that he may become self-reliant in coping with various social, psychological and environmental problems. If the offender is able to abide by all the conditions of the probation order and is not involved in any further law violations, the case should be reclassified into category IV.

Criteria:

1. More than one offense, or juvenile history with a background of successful, stable employment for at least six (6) months, good school adjustment, or good military adjustment.
2. A first offender with a history of poor employment or school; or serious family problems either with spouse or parent.

3. Alcoholics who display a serious effort and the ability to change.

- a. Those with supportive spouses who are non-alcoholic.
- b. Those voluntarily participating in a therapy program.

Case Contacts: Moderate frequency, High intensity.

Category III A

Definition: These consist of violators whose "fundamental behavior problem" is not a serious threat to the community or to persons in the community; however, they tend to recidivate regardless of the frequency and intensity of the contact. These individuals frequently become involved in nuisance type offenses and have little in their background that can be utilized to develop a productive change. Their academic, employment, military and marital histories are poor.

Purpose: The purpose of this category is to provide a reasonable amount of contact with the offender who is not likely to succeed, but requires supervision and control for his own protection as well as for the best interest of the community.

The desired goal is to motivate the offender to the point of wanting to change. Upon achieving such a goal, the case can be reclassified to category II for more intensive supervision or to category IV if all problems have subsided.

Criteria:

1. Alcoholics not putting forth an effort to change.
2. All those who have not experienced a productive educational or employment record and have a previous conviction.
3. Any other offender who is not a direct threat and has nothing in his favor that would assist in making a change nor has the desire to change.

Case Contacts: Moderate frequency, Low intensity. Contact can take place in the office and occasionally at subject's home. The parents or spouse should be seen periodically as can the employer. Collateral contact with community agencies may be of importance. Emphasis should be placed on providing supportive counseling.

Category III B

Definition: Those who are a serious threat to the community and, therefore, require close supervision for rapid identification of problems that may be presented in the formidable stages of supervision. The emphasis is on protecting the community from violence, as well as providing the needed support to the offender.

Purpose: Maintain frequent contact with the offender and collateral resources in order to identify and establish the client's activities. Set and clarify limits. Provide rigid enforcement of the conditions of probation. Take immediate action on any violations.

The goal is to maintain control of cases that may be potentially dangerous for a reasonable period; and if such a case should progress satisfactorily with frequent contact, the case could be classified into category II if the offender doesn't indicate violence, but presents a chronic, non-threatening problem.

Criteria:

1. Those displaying "fundamental behavior problems" as evidenced by their involvement in a serious sex offense.
 - a. Sex offenses involving children under 14 years of age.
 - b. Any sex offense involving force.
 - c. All returns from Atascadero State Hospital.
2. Narcotics involving the use of opiates or stimulants within the past three (3) years.
3. Violent prone offender convicted of an aggressive offense during the past three (3) years.
 - a. Offenses involving the use of weapons, fire, caustic chemicals or explosives.
 - b. Robbery with or without a weapon.
 - c. Kidnapping.
4. Those cases diagnosed as being extremely emotionally disturbed, but not institutional, or disturbed and waiting institutional placement as well as post-institutional cases.

Case Contacts: High frequency, Low intensity. Contacts should be in the form of regular unscheduled home calls or office visits. Periodic contact would be maintained with neighbors, relatives, employers and parents or spouse.

Category IV

Definition: This category consists of probationers without serious social or psychological problems who have displayed an ability to provide for themselves independently and without support or care.

Purpose: The primary objective of this category is to prepare the probationer for termination of his case by withdrawing all supervision and controls. The expected result would be a relatively stable person capable of exercising his own affairs in a socially acceptable manner.

If probation does not expire after the offender has been supervised in this category for a period of twelve (12) consecutive months and has satisfied all conditions of probation, the case should be returned to the community Court for consideration of early termination.

Criteria:

1. All those offenders who have been in category I, II, III and who have not been involved in further law violations and who are abiding by all the conditions of the Court, not necessarily including free of financial condition trouble.
2. Cases that are self-sustaining.
 - a. No history of conviction within the last three (3) years.
 - b. Fulfilling all obligations to the Court.
 - c. Supervised in other categories for a minimum of three (3) months.
 - d. Regularly employed, or attending school successfully.
 - e. Not diagnosed as being a serious psychological problem.
3. All those offenders who have been on probation for a period of two (2) years in other categories and who are:
 - a. Fulfilling all obligations to the Court.
 - b. Employed successfully and productively, or in school with a successful adjustment.
 - c. Not diagnosed as having serious psychological problems.

Case Contacts: Low frequency. Low intensity. Such contact will consist of infrequent office visits or contacts by mail or telephone. Other contacts may be through a clerk or secretary working under the authority and supervision of the probation officer in these cases carrying out financial orders.

Education Code Section 22811 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The governing board should and the school district should provide for redemption of bonds prior to their maturity at the option of the governing board of the school district. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

Southwesterly along said curve, the tangent of which bears North 60°
59'11" East, with a radius of 25.60 feet thru a central angle of 90°

(c) PUBLIC NEED

The existing 24 feet of paved crossing is no longer geometrically consistent with Gibson Road (76' between curbs) and the Southern Pacific Company's tracks. The resulting constriction to 24 feet of pavement at the crossing creates a traffic hazard.

Gibson Road is one of the primary routes from the Southern section of the City of Woodland to State Highways 113 and 16.

(c) REGARDING GRADE SEPARATION

1 provisions of the District Reorganization Act of 1985.

2 (3) No reorganization or any term or condition
3 thereof shall impair the rights of any present bond holder or
4 creditor of the BRYTE SANITARY DISTRICT. Only the area to be
5 annexed located in the BRYTE SANITARY DISTRICT shall be subject to
6 taxation to service the outstanding bonded indebtedness and
7 creditors of the BRYTE SANITARY DISTRICT as at the effective date

19 less expenses pertaining thereto, within ten years from September
20 30, 1966, from G. W. WILLIAMS & COMPANY, a corporation, regarding
21 funds presently owing to the BRYTE SANITARY DISTRICT for land

25 (8) The following outstanding obligations or
26 contracts of BRYTE SANITARY DISTRICT in existence as of June 30,
27 1967, shall be assumed by WEST SACRAMENTO SANITARY DISTRICT:

28 (a) The outstanding garbage collection

30 ALBERICCI GARBAGE SERVICE, which contract is
31 to expire on September 30, 1968;

32 (b) The employment contracts of the present
employees of the BRYTE SANITARY DISTRICT.

1 (9) Until the annexation of the BRYTE SANITARY
2 DISTRICT to the WEST SACRAMENTO SANITARY DISTRICT is completed,
3 the BRYTE SANITARY DISTRICT shall keep current all of its
4 presently existing obligations of any nature and incur no new
5 obligations.

6 (10) The WEST SACRAMENTO SANITARY DISTRICT shall
7 be designated as the successor to the BRYTE SANITARY DISTRICT for
8 the purpose of succeeding to all the rights, duties and obligations
9 of the BRYTE SANITARY DISTRICT with respect to enforcement,
10 performance or payment of any outstanding bonds, revenue bonds,
11 or other contracts and obligations of said BRYTE SANITARY DISTRICT
12 subject however to all of the terms and conditions as set forth
13 hereinabove.

14 (11) The annexation of the BRYTE SANITARY DISTRICT
15 to the WEST SACRAMENTO SANITARY DISTRICT shall be concurrent with
16 the dissolution of the BRYTE SANITARY DISTRICT pursuant to the
17 District Reorganization Act of 1965; said annexation and dissolution
18 shall both be effective on June 30, 1967, and the elective Board
19 of the BRYTE SANITARY DISTRICT shall terminate on said date.

20 (12) The conditions, covenants and terms set forth
21 in this Resolution of Application shall only become effective
22 and binding between the BRYTE SANITARY DISTRICT and the WEST
23 SACRAMENTO SANITARY DISTRICT after special elections duly held
24 on September 13, 1966, in both sanitary districts and at said
25 elections the registered voters of each respective district must
26 approve by majority vote of those cast said annexation and
27 dissolution upon the terms and conditions contained herein. The
28 questions to be submitted to the voters of each respective
29 district at the special elections shall be in the form and terms
30 as provided by the Government Code Sections 56107, 56108, 56109,
31 56110, 56113 and 56115.

32 3. Preliminary proceedings were commenced by the WEST

1 SACRAMENTO SANITARY BOARD and the BRYTE SANITARY BOARD with each
2 said board filing a Mandatory Resolution of Application for Re-
3 organization with the Yolo County LOCAL AGENCY FORMATION COMMISSION.

4 4. The reasons for the proposed reorganization are as
5 follows:

6 (a) Greater efficiencies are possible with a single
7 district. The main advantage results from the ability to plan more
8 effectively on an integrated basis for the needs of the future.
9 Only under a single board and administration can an optimum system
10 for the entire East Yolo area be developed.

11 (b) With a single district, unnecessary duplication of
12 maintenance equipment and work crews can be eliminated. The
13 bookkeeping and clerical work can also be accomplished more
14 efficiently.

15 (c) The area's growth potential should be enhanced by
16 annexation and concurrent dissolution of the BRYTE SANITARY
17 DISTRICT. Under the present district configuration, competition
18 for the Marina area can be expected between BRYTE SANITARY
19 DISTRICT and WEST SACRAMENTO SANITARY DISTRICT. If they are
20 combined in a single district, Marina can annex to that district
21 and the area can be sewered in accordance with best overall
22 engineering considerations, and not on the basis of political
23 maneuvering between districts.

24 (d) As new industries locate at the Port of Sacramento
25 and as new taxable valuation develops from these, all of the
26 East Yolo area will be able to benefit from the new tax and sewer
27 service revenue generated. This will be possible only if
28 annexation occurs and concurrent dissolution of the BRYTE SANITARY
29 DISTRICT.

30 5. NOTICE IS HEREBY GIVEN that the 12th day of August,
31 1966, at 9:30 o'clock A.M. in the Board of Supervisors' Room,
32 at the Courthouse, Woodland, California, has been fixed as the

1 time and place for a public hearing before the Board of Supervisors
2 of the County of Yolo on the question of the proposed reorganization
3 consisting of annexation of territory to the WEST SACRAMENTO
4 SANITARY DISTRICT and dissolution of BRYTE SANITARY DISTRICT.

5 6. Any interested person desiring to make written protest
6 against said reorganization shall do so by written communication
7 filed with the Clerk of the County of Yolo not later than the
8 hour set for hearing. A written protest by a landowner shall
9 contain a description sufficient to identify the land owned by

(b) BRODERICK SANITARY DISTRICT

Both said districts are located in Yolo County, California.

2. (a) The particular changes of organization proposed for
each district are the annexation of the BRODERICK SANITARY
DISTRICT to the WEST SACRAMENTO SANITARY DISTRICT and the con-
current dissolution of the BRODERICK SANITARY DISTRICT.

(b) The terms and conditions applicable to said annex-
ation and concurrent dissolution are as follows:

(1) Petitioner shall pay one-third of all expenses

15 THOUSAND THREE HUNDRED THIRTY-ONE DOLLARS AND SIXTY-SIX CENTS

26 (6) The following outstanding obligations or contr-
27 acts of BRODERICK SANITARY DISTRICT in existence as of June 30,
28 1967, shall be assumed by WEST SACRAMENTO SANITARY DISTRICT:

30 contract of the BRODERICK SANITARY DISTRICT
31 with EAST YOLO GARBAGE SERVICE which contract
32

1 is to expire on September 30, 1968;

2 (b) The employment contracts of the present
3 employees of the BRODERICK SANITARY DISTRICT.

4 (7) Until the annexation of the BRODERICK SANITARY
5 DISTRICT to the WEST SACRAMENTO SANITARY DISTRICT is completed,
6 the BRODERICK SANITARY DISTRICT shall keep current all of its
7 presently existing obligations of any nature and incur no new
8 obligations.

9 (8) The WEST SACRAMENTO SANITARY DISTRICT shall
10 be designated as the successor to the BRODERICK SANITARY DISTRICT
11 for the purpose of succeeding to all the rights, duties and
12 obligations of the BRODERICK SANITARY DISTRICT with respect to

17 (9) The annexation of the BRODERICK SANITARY

24 (10) The conditions, covenants and terms set
25 forth in this Resolution of Application shall only become
26 effective and binding between the BRODERICK SANITARY DISTRICT and
27 the WEST SACRAMENTO SANITARY DISTRICT after special elections
28 duly held on September 13, 1966, in both sanitary districts and
29 at said elections the registered voters of each respective

31 annexation and dissolution upon the terms and conditions contained
32 herein. The questions to be submitted to the voters of each

1 respective district at the special elections shall be in the form

4 3. Preliminary proceedings were commenced by the WEST
5 SACRAMENTO SANITARY BOARD and the BRODERICK SANITARY BOARD with each
6 said board filing a Mandatory Resolution of Application for Re-
7 organization with the Yolo County LOCAL AGENCY FORMATION
8 COMMISSION.

9 4. The reasons for the proposed reorganization are as
10 follows:

11 (a) Greater efficiencies are possible with a single
12 district. The main advantage results from the ability to plan
13 more effectively on an integrated basis for the needs of the
14 future. Only under a single board and administration can an
15 optimum system for the entire East Yolo area be developed.

16 (b) With a single district, unnecessary duplication of
17 maintenance equipment and work crews can be eliminated. the
18 bookkeeping and clerical work can also be accomplished more
19 efficiently.

20 (c) The area's growth potential should be enhanced by
21 annexation and concurrent dissolution of the BRODERICK SANITARY
22 DISTRICT.

23 (d) As new industries locate at the Port of Sacramento
24 and as new taxable valuation develops from these, all of the
25 East Yolo area will be able to benefit from the new tax and sewer
26 service revenue generated. This will be possible only if
27 annexation occurs and concurrent dissolution of the BRODERICK
28 SANITARY DISTRICT.

29 5. NOTICE IS HEREBY GIVEN that the 12th day of August,
30 1966, at 9:30 o'clock A.M. in the Board of Supervisors'
31 Room, at the Courthouse, Woodland, California, has been fixed as
32 the time and place for a public hearing before the Board of

Supervisors of the County of Yolo on the question of the proposed reorganization consisting of annexation of territory to the WEST SACRAMENTO SANITARY DISTRICT and dissolution of BRODERICK SANITARY DISTRICT.

COUNTY OF YOLO

Woodland, California

July 14, 1966

Honorable J. W. McDermott, Chairman
and Members of the Board of Supervisors
Woodland, California

Gentlemen:

The proposed county budget for the fiscal year 1966-67 as submitted for your consideration and review provides for an expenditure program in total budgetary requirements for all county purposes of \$14,696,688. This includes an increase of \$1,017,376, or 7.4% over the 1965-66 budget of \$13,679,312. However, this increase of \$1,017,376 is \$486,000 less than the increase incurred for the fiscal year 1965-66, which was \$1,503,000, or 12.3%, over the budget of 1964-65. Essentially this means that the rate of increase both in percent and in dollar amount has been decreased.

This proposed budget for the fiscal year 1966-67 includes for the first time full year expenditures for new services and expansions of existing services which were authorized during the 1964-65 and 1965-66 fiscal years. Proper provisions have

been made for county services in accordance with the policies established by your Honorable Board.

There are two matters of substantial importance which overshadow this budget for the fiscal year 1966-67. These are as follows:

- (1) The age of reimbursed county services has arrived. This means that the county must first have the money to initiate major service expansions dictated by state and federal rules and regulations, and then be reimbursed by the state and Federal governments. A good example of this and of major financial significance is the Medicare legislation adopted by the California State Legislature, known as A.B.5.
- (2) The question as to what progress shall be made with respect to the replacement of deficient county buildings, as related to the non-acceptance of bonding proposals and how such necessary buildings are to be financed.

During the course of this year and after your Honorable Board had adopted the budget for the fiscal year 1965-66 the

Legislature in the late fall of 1965 adopted A.B. 5, which is the California Medicare legislation. This legislation changed the basis of funding certain medical welfare programs, namely, Medical Aid to the Aged and Public Assistance Medical Care, and also expanded the program to include medically indigent persons not previously a part of public welfare or public assistance programs. The financial effect on this county of this legislation was to require the payment to the State in the late spring of 1966 of approximately \$192,000. The effect of this advance to the State has been to materially reduce county reserves. In fact, where county funds as of June 30, 1965 were approximately \$1,000,000 and available for use in the 1965-66 fiscal year, this payment of \$192,000 is primarily responsible for reducing county funds available as of June 30, 1966 to approximately \$800,000. Eventually a portion of this major advance will be returned to the county.

Since many of the medicare financing rules and regulations have not as yet been received, this uncertainty requires at the local county government level that utmost caution be exercised in providing for the local financing portion of medicare expenses. This financing problem revolves around the fact that under the more restrictive federal-state medical care programs that existed up to March 1, 1966, counties were either advanced the necessary funds or were reimbursed within a matter of days. Now under the broadened programs, reimbursement for county medical care costs may be delayed for as much as thirty (30) to one hundred and twenty (120) days. This requires that more local funds be provided at the outset for these programs.

For this reason, the budget of the Welfare Department contains an additional \$100,000 for this purpose and the budget for the Reserve for Contingencies is \$325,000 instead of \$150,000. These items are included in the 1966-67 budget

because of the uncertainty regarding financing of the medical care programs and because the cost of care is so large, adequate reserves must be maintained to prevent a possible financial catastrophe later on in the year. When these added financial requirements for 1966-67 are combined with the surprise \$192,000 billing in the late spring of 1966, the cost for tooling up for medicare in Yolo County is \$477,000.

The new tax revenue from increased assessed property valuation is insufficient to finance these added costs without any consideration or allocation for other county departments.

The proposed preliminary budget for the fiscal year 1966-67 as submitted, provides for a basic county tax rate of \$2.17 per One Hundred Dollars of assessed valuation which is an increase of Eight Cents (8¢) over the basic tax rate of \$2.09 which existed in 1965-66. This basic tax rate for 1966-67 is divided as follows:

General Fund	\$1.89
Accumulative Capital Outlay (Building Fund)	28
Total	\$2.17

In a subsequent portion of this budget letter, certain recommendations will be made to decrease certain departmental appropriations and place an equivalent sum in the Reserve for Contingencies in view of the medical care financing problem in order that there may be approximately \$375,000 in that fund. With respect to other applicable tax rates affecting the County Library and the respective Road Districts, this budget provides that no change be made in such rates.

As occurred with respect to the 1965-66 budget, the 1966-67 budget will also be very substantially financed by miscellaneous revenues. Previous mention has been made of the fact that the

VI

property tax revenues provided through increased assessed valuation is inadequate to cover initial medical care costs. The 1966-67 budget also includes another amount equal to approximately Three Cents (3c) on the tax rate to cover the increase in county Social Security benefit contributions which is required by federal law.

A partial list of budget increases is as follows: (Detailed comments relating to certain of these items are included in a subsequent portion of this budget letter.)

GENERAL COMMENTS AND RECOMMENDATIONS

(1) CAPITAL OUTLAY FUND

In the projection and submission of the budget for the Capital Outlay Fund, or as otherwise known, the County Building Fund, consideration must be given to the fact that your Honorable Board has accepted a comprehensive building program report. This comprehensive report has provided the necessary organization and schedule of major improvements to the county physical plant. Included in the consultant's report are projects which actually could and should have been constructed prior to 1960 and in fact some prior to 1955. The pressures that existed in those years to make no

improvements has contributed to a major increase in costs to taxpayers as a result of such delay. These same conditions will continue to prevail and the same eventual fantastic increase to county taxpayers will occur if further delay is tolerated now. Adoption of the schedule of improvements as presently listed in this budget will resolve at least one major problem of long history, and that is the County Sheriff's office and jail. Action in this regard, therefore, will reduce the amount that would accrue through further delays. But other necessary projects which need to be planned, if county tax money is to be properly expended at the least cost to county taxpayers, cannot be included in this budget because of the limitations imposed through the existing Twenty-eight Cent (28c) building fund tax rate.

One of the main problems with which your Honorable Board is confronted with respect to providing funds for necessary county structures is the fact that construction costs are estimated to increase approximately 7% per year. Approval of the budgeted projects of the county building fund for 1966-67 will reduce the total needs by approximately \$1,300,000. This leaves \$7,800,000 of needs which were scheduled to be either completed or in process of construction by 1973. Based upon the 7% increase in building construction costs, delay will mean the addition of approximately \$540,000 in added costs this year. In addition, the existing building fund which could have been utilized to finance architectural fees for the various projects will be used primarily for the construction of the new jail or detention facility.

Each year action is not taken, the eventual bill will increase, and the cost to the taxpayer will simply be unreasonable. Your Honorable Board is confronted with two alternatives, both of which are difficult:

- (A) Review the remaining construction projects and determine a schedule of priority and provide additional revenues based on the revised schedule and limited

VII

number of projects; or

- (B) Provide additional tax revenue to either partially or totally cover construction costs based on the original schedule as submitted in the consultant's proposal.

The Accumulative Capital Outlay budget for 1966-67, otherwise known as the County Building and Land Acquisition Fund is \$1,510,475, which represents an increase of \$392,975 over the budget of 1965-66. This budget is based upon the policy of your Honorable Board that the building fund tax rate be Twenty-Eight Cents (28¢) per One Hundred Dollars of assessed valuation. The balance remaining in the fund of approximately \$960,000 on June 30, 1966 is added to the revenue derived from the 28¢ tax rate for this purpose. This is, of course, the largest building fund budget in the history of Yolo County. It is allocated to various projects as follows:

- (A) The sum of \$100,000 is included for land acquisition for purchase of needed public sanitation facilities and also to provide funds to round out county property holdings as may be necessary.
- (B) The sum of \$950,000 is included for the construction of a new Sheriff's office and detention facility. This is consistent with the policy of your Honorable Board since during the past few years funds have been raised for the construction of this building.
- (C) The sum of \$270,000 is included for the construction of a new branch Library in Davis. This is included in this budget for this fiscal year since the land has already been provided to the county for this purpose, and to conserve costs which would increase due to any further delay. It is the most economical method at this time to proceed with the planning

and construction of this branch Library at Davis. Adequate funds for repayment from the Library Fund are provided in the County Library budget. Architectural fees for this building will come directly from available funds presently in the Library Fund.

- (D) The sum of \$93,000 is allocated for County Hospital remodeling and other improvements in that structure, pending any further determination of policy by your Honorable Board with respect to that building.
- (E) The sum of \$25,000 is included for necessary Courthouse renovation and remodeling as may be necessary during the course of this year. A major portion of the project with respect to the Courthouse will be the repairs to the surface of the outside of the structure.
- (F) The sum of \$25,000 is included for construction of temporary facilities in the Broderick Auditorium to enable removal of county offices from the condemned school building.
- (G) The sum of \$15,000 is included for a new Juvenile Hall classroom which will be a portable structure, although eminently suited for use at the Juvenile Hall.
- (H) The sum of \$2,000 is provided for necessary improvements in the Knights Landing and Clarksburg fishing access areas, in accordance with reports submitted to your Honorable Board for improvement in launching and docking facilities at these fishing access areas.
- (I) The sum of \$1,650 is included for some structural

items in connection with the new storage building at the Agricultural Department for which bids were awarded several weeks ago.

- (J) The sum of \$28,825 is included for equipment for various departments, including Communications, Sheriff, and County Hospital.

SPECIFIC COMMENTS

In the detailed comments which follow relative to individual departments or services, the recommendations for budget deletions do not mean that the County Executive disagrees with the requests of departments on items included in this budget. Such recommendations for reducing departmental appropriations are based upon an over-all evaluation of what is most necessary, considering medical care and county building problems, in order to contain the need for increased property taxes. Primarily because of the uncertainty surrounding medical care financing, the net amount resulting from any recommended increases or deletions should be added to the Reserve for Contingencies. Funds in this reserve may not be expended except through separate action by your Honorable Board and requires a minimum of four votes of members of the Board of Supervisors.

(I) REQUESTS FOR SALARY ADJUSTMENTS

Despite the fact that a major salary increase was adopted by your Honorable Board effective January 1, 1966, certain departments have requested additional salary increases for the new fiscal year. After careful study the following recommendations are made for adjustments, effective September 1, 1966, and are included in the budget as submitted:

- (A) Division Heads in the Sheriff's Department, now classified as Deputy Sheriffs, but actually performing duties as Division Heads, be reclassified as Division Heads with salary increased from Range 15 (502-610

per month) to Range 18 (581-707 per month).

- (B) Change the range of Resident Deputy Sheriffs now on the same range as Deputy Sheriffs at Range 15 (502-610 per month) to Range 17 (553-673 per month). This is justified because of the wide span of responsibility and areas which these Resident Deputies cover without supervision.
- (C) Change the range of the Supervisor of Hospital Accounting from Range 17 (553-673 per month) to Range 19 (610-742 per month) because of increased responsibilities in operations required because of medical care business function changes due to federal and state legislation.
- (D) Change the range of the Accountant-Auditor in the office of the Auditor-Controller from Range 17 (553-673 per month) to Range 19 (610-742 per month), in view of the intensified audit procedures recommended by the Grand Jury and in lieu of employing another Accountant-Auditor.
- (E) Change the range of the Tabulating Equipment Operator from Range 11 (412-502 per month) to Range 12 (433-527 per month). This change is necessary because this adjustment was overlooked previously.
- (F) The Judge of the Cacheville Justice Court and the Judge of the Grafton Justice Court have requested increases in salary--for Cacheville from \$2,000 to \$2,300 per year, and for Grafton, \$2,400 to \$3,000 per year. These salaries have been previously reviewed and established by your Honorable Board in connection with the salaries of the other Justice Courts and it is recommended that \$300 be deleted from the Cacheville Justice Court budget, and \$600 from the Grafton

Justice Court budget.

(G) The Sheriff has requested a general adjustment in salaries for the Deputy Sheriffs in his department; the Probation Officer has requested an adjustment in Juvenile Hall salaries for all employees; and the Health Officer has requested transfer from a flat annual salary to a step range salary. Adjustment in these salaries at this time would in fairness require an adjustment in all salaries. These salaries appear to be fairly set as adopted, based upon the increases in salary which your Honorable Board authorized for these positions effective January 1, 1966. The change in the method of payment to the Health Officer is complicated by the combined salaries for Health Officer and Director of Mental Health. The combined salaries appear to be in line and some change might be considered at a later time when all other salaries are changed. The Veterans Service Officer has requested certain salary adjustments. The salaries in this office were raised in conjunction with all other county salaries on January 1, 1966, and these classifications, unless there is a special reason not known to this office, should remain at their existing ranges.

(H) The recruitment of persons for the position of Administrative Service Officer, as authorized for the County Welfare Department has failed to develop candidates sufficiently familiar with the business operations of that department to justify appointment. After consultation with the County Welfare Director, it is recommended that the position of Administrative Service Officer be deleted, and instead, a position of Assistant Director of the department be established. This will provide the Director with necessary additional top-level assistance which is vitally necessary because of the growth of this department.

(2) COUNTY ASSESSOR

The budget for this department includes two additional Auditor-Appraisers effective September 1, 1966, and two Assessment Clerks effective January 1, 1967. These positions are necessary due to workload in that department. In addition, it is recommended that two additional Appraisers be added to the staff of this department effective September 1, 1966, due to increased workload established through passage of legislation known as A.B.80. This requires the addition of \$13,760 to this budget. Under fixed assets delete one automobile van in the amount of \$2,600.

(3) PROBATION DEPARTMENT

Delete one Supervisory Deputy Probation Officer, two Deputy Probation Officer positions, and two Intermediate Stenographer Clerk positions, for a total reduction of \$19,615. This leaves one additional new Deputy Probation Officer position in this budget. This recommendation for deletion is part of the over-all evaluation of the most necessary items for inclusion in this budget, and I recommend that further consideration be given in the spring of 1967 to these positions that are recommended to be deleted. It is also important to note there is a space problem in the Probation department office, and the addition of these five positions would create a serious work problem.

(4) HEALTH DEPARTMENT

Delete one Public Health Social Worker position which was not approved for the 1965-66 budget, and is not recommended for inclusion this year either, since social work should be concentrated in one department, rather than several.

Delete one Senior Public Health Nurse and delete one Laboratory Assistant, as part of necessary reductions to provide additional funds for the reserve needed for medical care. The effect of these reductions is to reduce the budget by \$10,163. In addition, reduce Transportation and Travel from \$10,000 to \$8,000. There is no justification for Transportation and Travel for this department to be higher than that provided for the County Assessor. With these reductions, two new positions are still recommended for the Health Department, effective September 1, 1966. These are one Senior Public Health Nurse position, and one Intermediate Typist Clerk.

(5) SHERIFF

Delete one Deputy Sheriff, two Detective Lieutenant positions, and one Assistant Matron position, for a total reduction of \$14,172. The budget will include, after such deletions, one new additional Deputy Sheriff position effective January 1, 1967 for jail shift duty. The reductions which have been made are directly related to providing additional funds for the Reserve for Contingencies.

(6) VETERANS SERVICE OFFICE

Delete from the budget the requested one-half additional Intermediate Typist Clerk in the amount of \$2,395. The justification for this additional half-time position does not merit addition to the budget. This additional one-half time position, which will remain in the budget, was granted within the past fiscal year.

(7) CONVENTION BUREAU

Reduce the request for \$2,500 to \$1,000. Further consideration might be given to the requested increase in the 1967-68 budget.

(8) ADVERTISING COUNTY RESOURCES

The budget for the Yolo County Chamber of Commerce includes provisions for six months employment of a full-time Manager. This request appears to be premature at this time and conflicts to a certain extent with the policy of your Honorable Board to strengthen the local individual Chambers. In this connection, \$2,400 should be deleted and the full time Manager's expense of \$240 should also be deleted. Since the Yolo County Chamber of Commerce shares its office with the Woodland Chamber of Commerce, the sum of \$600 or \$50 per month should be provided as a contribution for office rent. Likewise, the provision for an Intern does not appear to be adequate and therefore it is recommended that the county Chamber's budget include an Assistant salary of \$500 per month. The Chamber should be allowed sufficient flexibility to arrange for these changes within the total sum of \$21,300.

(9) PUBLIC DEFENDER

Delete one position of Deputy Public Defender. This position was requested on an extra help basis during the fiscal year 1965-66 and specific attention should be given during the coming year for improved evaluation as to the need for this additional position. It is therefore recommended that the sum of \$8,618 be deleted from the budget of the Public Defender.

(10) CONSTABLES

One of the Constables has requested an item of \$300 be provided for office expense this year, and also has requested the sum of approximately \$7.00 for the purchase of a radio. The position of Constable is substantially

different than that of a regular employee in that Constables are entitled to and do receive separate fees for performance of their duties. These items of office expense or a new radio, if given for one Constable, should legitimately be given to all. There is a question in view of the fee payments as to whether such expenditures would be justified.

(11) JUSTICE COURTS:

The following adjustments should be made in individual Justice Court budgets:

(A) Davis

Reduce Extra Help in the Davis Court from \$750 to \$200. Additional personnel has been authorized for this busy office, and the sum of \$200 should be sufficient for extra help. Also delete \$6,500 from Fixed Assets for a cash register machine. Such expenditure does not appear to be warranted at this time after discussion with the County Auditor-Controller.

(B) Washington

Reduce Office Expense from \$2,500 to \$2,000. This reduction of \$500 is justified based on previous expenditure experience.

(C) Winters

Reduce the amount of Extra Help in the budget for the Winters Justice Court from \$500 to \$400. This is a small office, and this amount of extra help funds should be sufficient to provide relief for the one clerical position established for this Court.

(D) Woodland

It is recommended that Jury and Witness fees be reduced from \$5,000 to \$4,500. This allows a \$500 increase over expenditures of approximately \$4,000 during 1965-66. The request for Library Books should be reduced from \$500 to \$325. This will allow an increase for this purpose of approximately \$100 in excess of expenditures during 1965-66.

(12) COUNTY HOSPITAL

The budget for the County Hospital includes one position of Physical Therapist in the total amount of \$8,451, effective September 1, 1966. This position has been requested by the hospital because of the need for physical therapy for patients.

(13) DISTRICT ATTORNEY

With the separation of the County Counsel's office and the District Attorney's office, and the additional staff provided for the District Attorney, a position of Junior Typist Clerk has been requested by the District Attorney. This position is necessary and it is recommended that it be approved effective September 1, 1966. The sum of \$4,575 is included in the budget for this position.

(14) WELFARE DEPARTMENT

In accordance with state rules and regulations the Welfare Director has requested the addition of eleven new positions which in accordance with the regulations are supposed to be on the payroll as of June 30, 1967. Therefore, in order to conform to the state requirements these positions are included in the budget effective June 16, 1967. This arbitrary requirement is being protested by

the majority of counties in the State of California, and it is recommended that your Honorable Board support the moves to change the arbitrary staffing requirements which have existed for several years. These arbitrary staff requirements are based upon mythical standards and have nothing to do with providing aid and assistance to persons on welfare.

(15) COUNTY LIBRARY

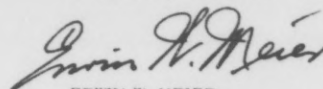

The County Librarian has requested the addition of a one-half time Library Assistant II effective January 1, 1967 for a cost of \$1,090. This addition to the Library staff is necessary and will complement the extensions of services as requested by private citizens throughout the county.

During the past several years your Honorable Board has caused to be made many improvements in the county government in the purchase of office equipment and in the purchase of needed vehicles, and the addition of personnel throughout the county governments and in bringing county buildings up to standard. The fiscal year 1966-67 is an unusual year because of the two major problems, one relating to medical care financing, and the other, county building costs. The reductions recommended above are reasonable. All departments can operate properly and give effective service, should your Honorable Board accept such recommendations. In view of the over-all major financing problems, these recommended reductions are not severe, and certainly can be considered and should be considered in connection with the budget for 1967-68, one year hence.

I wish to acknowledge the cooperation and assistance which has been provided by County Auditor-Controller Arthur

Heasley, and Assistant Auditor-Controller Clifford Wetherbee, and the staff of the Auditor-Controller's office in the compilation and development of this budget. It is generally not known, but Yolo County is one of the few counties in the State of California to prepare a budget with actual, rather than estimated, financial information on the preceding fiscal year, and likewise, the books of the county have been closed within a few days after the close of the fiscal year. This is a necessary business practice which is of considerable assistance in the development of this budget. Your Honorable Board has been willing, and often on short notice, to review county matters with the County Executive and the respective department heads. This has established assurance that policy guidance would be provided, and that problems as presented will receive your serious consideration. Mrs. Marguerite Lucchesi, my secretary, Mr. Jack Harrington the Purchasing Agent, Mr. Floyd McCain the Personnel Director, and Mr. Conrad Flanders the Administrative Analyst, have contributed materially in the development and presentation of this budget, and their assistance is sincerely appreciated.

Respectfully submitted,
